Right of Inspection Jacques Derrida 1998 "You will never know, nor will you, all the stories I kept telling me as I looked at these images." With these words Jacques Derrida opens his reading of Marie-Francoise Plissart's hundred-page photo-novel. Originally published in France in 1985, this tour de force of word and image is now available in English for the first time. Plissart's visual narrative unfolds in photographs, and photographs in photographs, in a kind of silent cinematography. Derrida's polylogue explores gender, photographic genre, language, and the interpretative act of seeing. The text and the photographs, each with its own structural syntax, together illuminate what is at stake in the "right of inspection."

Alexandria and Alexandrianism Paul Getty Museum 1996-09-26 One of the great seats of learning and repositories of knowledge in the ancient world, Alexandria, and the great school of thought to which it gave its name, made a vital contribution to the development of intellectual and cultural heritage in the Occident. This book brings together twenty papers delivered at a symposium held at the J. Paul Getty Museum on the subject of Alexandria and Alexandrianism. Subjects range from "The Library of Alexandria and Ancient Egyptian Learning" and "Alexander's Alexandria" to "Alexandria and the Origins of Baroque Architecture." With nearly two hundred illustrations, this handsome volume presents some of the world's leading scholars on the influence and fascination of this great city. The distinguished contributors include Peter Green, R. R. Rieu, and the late Bernard Bothmer.

Ubiquity Jacob W. Lewis 2021-12-15 From its invention to the internet age, photography has been considered universal, pervasive, and omnipresent. This anthology of essays posits how the question of when photography came to be everywhere shapes our understanding of all manner of photographic media. Whether looking at a portrait image on the polished silver surface of the daguerreotype, or a viral image on the reflective glass of a smartphone, the experience of looking at photographs and thinking with photography is inseparable from the idea of ubiquity—that is, the apparent ability to be everywhere at once. While photography's distribution across cultures today is undeniable, the insidious logics and pervasive myths that have governed its spread demand critical attention, now more than ever.

Ghost Image Hervé Guibert 2014-03-26 Ghost Image is made up of sixty-three short essays—meditations on memories, fantasies, and stories bordering on prose poems—and not a single image. Hervé Guibert's brilliant literary rumination on photography was written in response to Roland Barthes's *Camera Lucida*, but its personal contents go far beyond that canonical text. Some essays talk of Guibert's parents and friends, others describe old family photographs and films, and spinning through them all are reflections on remembrance, narcissism, seduction, deception, death, and the phantom images that have been missed. Both a memoir and an exploration of the artistic process, Ghost Image not only reveals Guibert's particular experience as a photographer captivated by the transience and physicality of his media and his life, but also his thoughts on the more universal aspects of his vocation. In one essay, Guibert searches through a cardboard box of family portraits for clues—answers, or even questions—about the lives of his parents and more distant relatives. Rifling through vacation snapshots and the autographed images of long-forgotten film stars, Guibert muses, "I don't even recognize the faces, except occasionally that of an aunt or great-aunt, or the thin, fair face of my mother."

young girl." In other essays, he explains how he composes his photographs, and how—in writing—he escapes and corrects the inherent limits of his technique, to preserve those images lost to his technical limitations as a photographer. With strains of Jean Genet and recurring themes that speak to the work of contemporary photographers across a range of media, Guibert's *Ghost Image* is a beautifully written, melancholic ode to existence and to the forms both fleeting and powerful—a unique memoir at the nexus of family, memory, desire, and photography.

Philippi. From Colonia Augusta to Communitas Christi 2011 1-29 This book combines careful reading of ancient texts, inscriptions, coins and other archaeological materials to examine how religious practice, material culture, and urban landscape changed as Philippi developed from a Roman colony to a major center for Christian worship and pilgrimage.

286 jours Frédéric Boilet 2013 De Pétrarque à André Breton, l'amour fou n'a jamais cessé de redéfinir l'imaginaire du couple. '286 jours' s'inscrit dans cette grande lignée, tout en la renouvelant de façon radicale. Car ici la rencontre entre l'homme et la femme prend la forme d'une œuvre à quatre mains où les voix et les regards s'échangent et se confondent, pour finalement se heurter et se disjoindre. C'est le croisement d'une passion amoureuse et sexuelle, aussi brève qu'intense, photographiée en même temps qu'elle. '286 jours' explore un nouveau langage pour faire ressentir tous les moments et toutes les nuances d'une relation. Cru, sensuel, bouleversant, '286 jours' déborde tous les genres, comme si le regard croisé des amoureux brouillait jusqu'aux limites de soi et du monde.

Nadja André Breton 1960 "Nadja," originally published in France in 1928, is the first and perhaps best Surrealist romance ever written, a book which defined that movement's attitude toward everyday life. The principal narrative is an account of the author's relationship with a girl in the city of Paris, the story of an obsessive presence haunting his life. The first-person narrative is supplemented by forty-four photographs which form an integral part of the work -- pictures of various "surreal" people, places, and objects which the author visits or is haunted by in Nadja's presence and which inspire him to meditate on their reality or lack thereof. "The Nadja of the book is a girl, but, like Bertrand Russell's definition of electricity as "not so much a thing as the way things happen," Nadja is not so much a person as the way she makes people behave. She has become a state of mind, a feeling about reality, a kind of vision, and the reader sometimes wonders whether she exists at all. yet it is Nadja who gives form and structure to the novel.

Claude Simon moments photographiques Albers 2007-05-31 Presque tous les romans de Claude Simon évoquent la photographie : qu'il s'agisse d'un personnage photographe dans Le Vent (1957), de clichés (L'Herbe, 1958), d'instantanés immobiles (Le Palace, 1962), de cartes postales ou d'une photographie énigmatique d'Histoire (1967), sans oublier les archives photographiques maternelles de L'Acacia... Mais chez Claude Simon cette présence des images nourrit d'abord une réflexion sur la langue, participe à son invention. Sa pratique de la « description dynamique » s'élabore dans un lien étroit à la visualité traumatique, désintégratrice de la photographie, suscitant une véritable esthétique du choc. En dialogue avec les théories de la photographie (Kracauer, Benjamin et Barthes) comme avec l'intertexte littéraire de Simon (notamment), Moments photographiques fait apparaître la photographie comme une figure conceptuelle des nouvelles poétiques de la mémoire. Et livre, ce faisant, à travers sa lecture de l'oeuvre simonienne, une contribution décisive à toute Histoire littéraire de la photographie.

Threads and Traces Carlo Ginzburg 2012-09-02 "This book is a translation of historian Carlo Ginzburg's collection of essays. Through the detective work of uncovering a wide variety of stories or microhistorical fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial, witch, seventeenth-century antiquarianism, and twentieth-century historians"--Provided by publisher.

The Diary of a Young Girl Anne Frank 2010-09-15 THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world class powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad, this single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were discovered by the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. From the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.
