An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. [View Helpful Introductory Videos Here](#)

Pathways to Stillness Gary Irwin-Kenyon 2016-07-14 This book is about stillness: What it is. How you can find it. Where it hides itself. Why it is necessary to your life. It is a beginner's guide, because with stillness, no experience is necessary. Besides, you are always a beginner in any case, because when it is present, there truly is nothing to do and nowhere to go. This book is also about learning to appreciate wandering or meandering along life's pathways. It does not contain "Six easy steps to wisdom and immortality." Rather, it offers a way to approach your journey, which you then create and discover on your own, with help! You are invited to find a Pathway to Stillness that fits "your" life. On this pathway, you often cannot see what is around the next bend. However, you need only show up for it to become a journey of curiosity, wonder, and more life. You may come to agree with the phrase, "All who wander are not lost." Although this is a book about slowing down to stillness, it is a "pickup-and-go" book that can be read in short segments within a busy life. The stillness stories and the easy to learn relax-into-stillness movements can be enjoyed in any order that suits you. You can linger with those that speak to you the most. With this book, you can practise stillness while waiting for an appointment, before going to sleep, or whenever you can steal some time for yourself....

The Essential Wayne Dyer Collection Wayne W. Dyer, Dr. 2013-09-24 The #1 New York Times best-selling author Wayne Dyer has been inspiring people to change their lives for many years. Now three of his most fascinating books are collected in this single volume: • *The Power of Intention* details Wayne's research on intention as a force in the universe that allows the act of creation to take place. He explains that it is not something we do, but rather an energy we're a part of. This is the first book to look at intention as a field of energy that we can access to begin co-creating our lives. • *Inspiration* dissects feelings of emptiness, the idea that there must be something more, and trying to determine the meaning of life . . . all evidence of a yearning to reconnect with our soul space. This book explains how we've chosen to enter this world of particles and form, and each chapter is filled with specifics for living an inspired life. From a very personal viewpoint, Wayne offers a blueprint through the world of Spirit to inspiration, our ultimate calling. • *Excuses Begone!* reveals how to change the self-defeating thinking patterns that have prevented us from living at the highest levels of success, happiness, and health. Wayne presents many of the conscious and subconscious crutches most of us employ, along with ways to cast them aside once and for all. The old, habituated ways of thinking will melt away as the absurdity of hanging on to them is exposed, and we ultimately come to realize that there are no excuses worth defending—ever. *The Essential Wayne Dyer Collection* is a must-read for those wanting to explore the power and potential of the human mind, as well as anyone who is finally ready to live the best life possible!

Lead Generation Ksenia Andreeva 2016-04-29 Presently, marketing has undergone serious change. Marketers have faced increasing demand to provide quantitative data representative of their work, particularly focusing on sales growth in correlation with a narrow target audience. As marketers strive to cultivate new customers directly, they have turned to a growing area of interest: lead generation - a marketing activity aimed at acquiring direct contacts of prospective customers that have demonstrated some interest in the seller's goods and services. This book has a purely practical purpose, serving as an introductory resource to principles and methods that will enable marketing professionals to raise the number of potential customers and multiply the number of sales typically received. The book describes: - lead generation theory, its basic concepts, and methods of evaluating a return on marketing investments; - customer detection techniques (cold calls, pay-per-click, mailings, events, etc.); - peculiarities and challenges of lead generation campaigns and methods to overcome obstacles; - real stories about the way companies do lead generation and calculate its results. Outstanding Features of the Book - 14 real life case studies. - New trends of lead generation: cadence, market places, content management. - Up-to-date statistics for 2015 and plans for 2016. - Based on multi-industry experience (IT, automotive, education and even public organizations). - The style of the book is simple, charismatic and with humor (contains caricatures, jokes, wise quotes of great businessmen). - Applicable to both B2B and B2C. - The author explains all the lead generation concepts but also gives reasons why they should not be treated rigorously, as every company has its own business features and, thus, ROI and lead criteria. - A special section is dedicated to the challenge of lead generation outsourcing. - As lead generation is based on constant testing and statistics, the author also speaks about software tools helping to run your campaigns and calculate ROI efficiently. The book presents the results of a global benchmark report: "Lead Generation: Strategies and tactics for 2016". This survey covered 259

respondents from information and telecommunication technologies, consulting, banking, wholesale, insurance, auto-dealers, etc.

Art as Adventure Rosemary O'Neill 2018-07-26 This volume represents a collection of six essays written by artists and art historians about journeys to places and methods of practice that challenge perceived taxonomies. The artist as traveler has deep historical precedents as contemporary art production today, and has historically followed political, economic, and cultural expansion. The role of the artist as witness, reporter, geographer, collector, and educator exemplifies the significance of mobility, geographic and cultural mediation in the productions of art and visual culture, and the critical questions raised as a result. The book encompasses a variety of perspectives on how artist-travelers have embraced and contextualized the places, people, cultures and overall experiences encountered on their journeys. Each chapter unveils different and unique approaches which artists have taken in

reacting and creating as part of a journey in which they are often the outsiders to the culture and place. Visual mappings conveying geo-locative walking data, recreations of indigenous ritual as installation, participatory video installations uncovering community perspectives, and a reflective diary about walking across lands affected by natural disaster are some of the ways these artists and historians examine the experiences the artists have encountered abroad. Each piece is completely unique, yet united in the act of journey and pursuit of alternative narrative born of the experience.
