As this Europe Since 1945 A Concise History, it ends stirring visceral one of the favored books Europe Since 1945 A Concise History collections that we have. This is why you remain in the best website to look the unbelievable book to have.

Europe Since 1945 Robert Wegs 1991 Provides a brief, comprehensive overview of postwar Europe. The book includes coverage of economic, social and cultural developments as well as political and diplomatic ones. It also takes account of the collapse of Communism and the current restructuring of the Continent.

A Concise History of Poland Jerzy Lukowski 2006-07-06 The second edition of this guide to Poland has been updated to take account of the years from 1989–2005. This period marked its liberation from the Soviet Union, the birth of Poland's 'Third Republic' and its accession to the European Union in 2004. Poland's history has been marked by its resilience. Once a dominant force in central Europe and home to a remarkable experiment in consensual politics, it was excised from the map by its neighbours in 1795. In 1918, partitioned afresh during the Second World War, it survived to become a satellite of the Soviet Union. Yet in the 1980s, which blazed the trail in casting off communism, and was finally able to reassert its Christian heritage. With its updated bibliography and new chronology, the book is the ideal companion for all looking for a comprehensive survey of this fascinating country.

Movements in Art Since 1945: Second Edition (World of Art) Lucie-Smith 2020-04-14 A classic introduction to art since the end of the Second World War, *Movements in Art Since 1945* tells the story of art across all forms of media over the past seventy years. Revised and redesigned for the first time since 2001, this standard introduction to visual art in the postwar era examines the trends, and artists from abstract expressionism to the present day. Writing with exceptional clarity and a strong sense of narrative, Lucie-Smith demystifies the work of dozens of artists and reveals how the art world has interacted with social, political, and cultural concerns. This book includes detailed coverage of major developments within the artistic community, such as pop art, conceptual art, performance work, neo-expressionism, and minimalist art across the globe, including Asia, Africa, and Latin America. A new chapter on art since 2000 includes discussions of work by Banksy and Ai Weiwei, as well as recent trends in art from Russia and Eastern Europe. Featuring nearly 300 images of key artworks that range from graffiti from 1980s New York to contemporary painting from the 2010s, this updated edition of *Movements in Art Since 1945* is as global in its reach as art has become in the twenty-first century.

The Shortest History of Europe John Hirst 2010 Chinese civilisation was for a long period more advanced than European. From China, Europe acquired printing, paper-making, the compass, gunpowder and locks for canals. Yet it was in Europe that steady economic growth first occurred and then the Industrial Revolution. And it was in Europe that representative government and individual rights, hallmarks of modernity, first developed. What is it about Europe? Celebrated historian John Hirst offers a fascinating exploration of the qualities that made Europe a world-changing civilisation. *The Shortest History of Europe* begins with a rapid overview of European civilisation, describing its birth from an unlikely mixture of three elements- classical learning, Christianity and German warrior culture. Over the centuries, this unstable blend produced highly distinctive characters - pious knights and belligerent popes, romantic poets, folklores and revolutionaries imitating Rome - and its coming apart provided the dynamic of European history in modern times. The common people were tilling the soil, until they became the first to enjoy the prosperity of an industrialised urban society. *History of Europe* is a clear, humorous and thought-provoking account of a remarkable civilisation.

A Concise History of the World Since 1945 W.M. Spellman 2006-01-24 W.M. Spellman explores the past half century focusing on key topics such as human migration, science and technology, international business, religion and politics and Empire. Authoritatively written, this is an ideal introductory guide for anyone with an interest in World history and the issues and challenges facing the world today.

French Foreign Policy since 1945 Frédéric Bozo 2016-08-01 When Charles de Gaulle declared that "it is because we are no longer a great power that we need a grand policy," he neatly summarized France's predicament on the world scene. In this compact and authoritative history, author Frédéric Bozo deftly recounts France's efforts to reconcile its proud history and global ambitions with a realistic assessment of its capabilities, from the aftermath of World War II to the present. He provides insightful analysis of the nation's triumphs and setbacks through the years of decolonization, Cold War maneuvering, and European unification, as well as the more contemporary challenges posed by an increasingly multipolar and interconnected world.

The United States and Western Europe Since 1945 Geir Lundestad 2005-08-11 Based on new and existing research by a world-class scholar, this is the first book in twenty years to examine the dynamics of the entire American-West European relationship since 1945. The relationship between the United States and Western Europe has always been crucial and recent events dictate that it is becoming so. In this important new work, Geir Lundestad analyses the balance between the cooperation and conflict which has characterised the relationship in the post-war period. He examines talk of transatlantic drift, and the strain now apparent between the USA and the states of Western Europe. In the concluding section, Lundestad offers a topical view of the future of transatlantic interaction. The work Lundestad's much cited 'empire by invitation' thesis is both put into practice and extended in time and scope. This is essential reading for anyone interested in one of the most important and enduring international relationships of the last sixty years. A Concise History of Poland Jerzy Lukowski 2019-01-31 Poland is a tenacious survivor-state: it was wiped off the map in 1795,

resurrected after the First World War, apparently annihilated again in the Second, and reduced to satellite status of the Soviet Union in 1945. Yet it emerged in the vanguard of resistance to the USSR in the 1980s, albeit as a much more homogeneous entity than in its multi-ethnic past. This book outlines Poland's turbulent and complex history, from its medieval Christian origins to the re-emergence of that Christian and European heritage after forty-five years of communism. It describes Poland's transformation since 1989, and how Poland navigated its way into a new Commonwealth of Nations in the European Union. Recent years have witnessed significant changes within Poland, Eastern Europe and the wider world. This new edition reflects on these changes, and examines the challenges facing a Poland which some would accuse of being out of touch with 'European values'.

Surpassing Realism Mark Gilbert 2004-09-08 A second edition of this book is now available. A true global giant, the European Union is a unique confederation of 15 member-states whose collective economic power is second only to that of the United States. Although encompassing 375 million citizens, the EU will soon grow to include a further 10 states from Eastern Europe and the Mediterranean. To understand the future of this remarkable experiment in regional cooperation, we must first trace its past. This engaging text provides a concise political history of European integration from the end of World War II to the present. The "European project" raises fundamental and important questions: How did Europe's states overcome their traditional rivalries and quarrels to build supranational institutions? What were the economic and geopolitical forces that drove them? Which statesmen contributed most to defining the European project? What are the issues that confronted the EU in the last decade and what problems will the EU face as its leaders consider even more advanced forms of political integration? All these questions are addressed by this text, which offers a clear and readable account of a complex historical process by which Europe's unique polity has been built. 2004 update: "A Fiasco But Not a Disaster" by Mark Gilbert, courtesy of World Policy Journal, Vol. 21 (Spring 2004) www.worldpolicy.org

A Concise History of the World Since 1945 Spellman 2020-09-16 This lively synthesis of global history since the end of World War II offers a gripping account of an interdependent world and the challenges facing individuals in the 21st century. The narrative is framed around two key tensions: the struggle between socialism and free-market capitalism and the interaction between cultural fragmentation and the competing integrative force of globalization. Considering the historical experience of Africa, Asia and Latin America as well as the West, it addresses the ever-expanding gulf between the developed North and developing South, and the environmental impact of development on the planet's delicate ecosystems. Authoritative and well-written, this is an ideal introductory guide for undergraduate and postgraduate students taking courses on global history since 1945. It is also a fascinating primer for anyone with an interest in world history and the issues affecting the globe today. New to this Edition: - Updated to cover events since 2006, including the conflict in Afghanistan, Iraq and Syria, China's economic and military advance to great power status, the refugee crises and the global financial crisis of 2008 - New material on the international drugs trade, global opioid crisis and healthcare implications - Expanded material on social media - Updated material on environmental issues, considering US disengagement from traditional global partners in the context of climate change and the Trump administration's distrust of climate science and executive roll-back of established environmental agreements - More social history, especially coverage of women and recent developments around issues of sexuality - Expanded section on global developments within the mainstream (as opposed to radical) tradition worldwide and current historiography

The World Since 1945 Keith Robbins 1998 This accessible and stimulating account of world history since 1945 provides a framework for making sense of the political and social developments of this period. The underlying theme of the book is the tension between the world conceived as a unity and the world conceived as a diversity. From this perspective, the author discusses the impulse toward world unity in the aftermath of the Second World War, the divisions inherent in the Cold War, and the shifting allegiances and conflicts that followed. He ends with an assessment of our position with regard to world unity and disunity as the millennium approaches.

European Integration Mark Gilbert 2020-08-19 Now in a fully revised and updated edition, this book remains the standard for concise histories of the European Union. Mark Gilbert offers a clear and balanced narrative of European integration since its inception in 1945 to the present, set in the wider history of the post-war period. Gilbert concludes by considering the Union's future in light of the challenges that has taken hold in the EU in the aftermath of the global recession, the refugee crisis, and Brexit.

A Concise History of Sweden Neil Kent 2008-06-12 Neil Kent's book sweeps through Sweden's history from the Stone Age to the present day. Early coverage includes Viking hegemony, the Scandinavian Union, the Reformation and Sweden's political zenith as Europe's greatest superpower in the seventeenth century, while later chapters explore the Swedish Enlightenment, royal absolutism, and the move to military neutrality and Pan-Scandinavianism. The author brings his account up to date by focusing on more recent developments: the rise of Social Democracy, the establishment of the welfare state, the country's acceptance of membership in the European Union and its progressive ecological programme. The book successfully combines the politics, economics and social and cultural mores of a small world's most successfully functioning and humane societies. This is an informative and entertaining account for students and general readers.

A Concise History of Austria Steven Beller 2006 For a small, prosperous country in the middle of Europe, modern Austria has a very rich and complex history, extending far beyond its current borders. In a gripping narrative supported by beautiful illustrations, Steven Beller traces the remarkable career of Austria from German borderland to successful Alpine republic.

Europe since 1945 James Robert Wegs 1986 "As Europe has expanded its influence in world economic and political affairs, there has been an increased need to understand how Europe recovered from the devastation of World War II to become a major world player. This concise history offers a comprehensive overview of Europe's political, social, economic and cultural developments since 1945. James Wegs and Robert Ladrech balance a narrative of the major events and personalities of the post-war political scene with a critical assessment of key issues and themes, such as: - The development of the welfare state - European integration and the European Union - The Cold War - The rise and fall of the Soviet Empire - The political-economic turmoil in eastern Europe since 1989 - The place of Europe in the globalisation of the world's political-economic affairs The text also features further reading sections at the end of each chapter for more detailed study, and is enhanced throughout with tables, maps and illustrations. Written for students and general readers, this thoroughly revised, updated and expanded new edition is an ideal introduction for anyone with an interest in the history and politics of Europe.

war Europe, east and west."--

A Concise History of European Monetary Integration Donald Ungerer 1997 Ungerer provides a comprehensive, yet concise and accessible history of European monetary integration over the past half century, from the European Payments Union (EPU) to the realization of the Economic and Monetary Union (EMU) as mapped out by the Maastricht Treaty. Monetary integration is essential to the completion of the single market and the realization of and closer political cooperation in Europe. Ungerer demonstrates this point while giving not only an up-to-date account and analysis of European monetary integration currently available. The book will be an important resource not only for scholars and students of European economic and political integration, but also for professionals in a wide range of fields including international business and finance.

Europe Since 1945 Robert Wegs 2017-09-16 As Europe has expanded its influence in world economic and political affairs, there has been an increased need to understand how Europe recovered from the devastation of World War II to become a major world power. This concise history offers a comprehensive overview of Europe's political, social, economic and cultural developments since 1945. Robert Wegs and Robert Ladrech balance a narrative of the major events and personalities of the post-war political scene with a critical assessment of key issues and themes, such as: - The development of the welfare state - European integration and the European Union - The Cold War - The rise and fall of the Soviet Empire - The political-economic turmoil in eastern Europe since 1989 - The place of Europe in the globalisation of the world's political-economic affairs The text also features further reading sections at the end of each chapter, a more detailed study, and is enhanced throughout with tables, maps and illustrations. Written for students and general readers, this thoroughly revised, updated and expanded new edition is an ideal introduction for anyone with an interest in the history and politics of war-torn Europe, east and west.

A Concise History of Switzerland David H. Church 2013-05-23 Despite its position at the heart of Europe and its quintessentially Alpine nature, Switzerland's history is often overlooked within the English-speaking world. This comprehensive and engaging history of Switzerland traces the historical and cultural development of this fascinating but neglected European country from the end of the Middle Ages up to the present. The authors focus on the initial Confederacy of the Middle Ages; the religious divisions which threatened the country in 1500 and its surprising survival amongst Europe's monarchies; the turmoil following the French Revolution and conquest, which led to the Federal Constitution of 1848; the testing of the Swiss nation through the late nineteenth century and then two World Wars; the Depression of the 1930s; and the unparalleled economic and social growth and political success of the post-war era. The book concludes with a discussion of the contemporary challenges, often shared with neighbours, that shape the country today.

European Socialism William Smaldone 2019-10-16 This accessible text offers a concise but comprehensive introduction to European socialism, which arose in the maelstrom of the industrial and democratic revolutions launched in the eighteenth century. Striving for sweeping social, economic, cultural, and political change, socialists were a diverse lot. However, they were united by principles of the social and political equality of all people, ideas that won the adherence of millions and struck fear in the hearts of their opponents. William Smaldone shows how, over the course of 200 years, socialists successfully promoted the democratization of society and a more equitable division of wealth. At the same time, he illustrates how conflicts over the means of achieving their goals divided them into rival "socialist" and "communist" currents, a rift that undercut the struggle against fascism and helped lay the groundwork for Europe's division during the Cold War. Although many predicted the demise of socialism as a potent force after the end of the Cold War, the Soviet Union's dissolution, and the rise of neo-liberal ideology, recent developments show that such a judgment is premature. The author argues that the growth of new socialist parties across Europe indicates that socialist ideas remain viable in the face of capitalism's failure to solve chronic social and economic problems, especially following the deep global crisis that began in 2008. Combining an analytical narrative with a selection of primary texts and visual images, this book provides undergraduate students with a brief, readable history, including an overview of how socialist political movements have evolved over time and stressing the reasons that have characterized socialism's foundations from its beginning. This new edition brings this text up to date and examines the current socialist movement in the face of 21st century challenges. It includes a new preface, including the 2017 American election, updated bibliographies, two new chapters and an afterword.

The German Wars Michael Palmer 2010-11-15 The German Wars: A Concise History, 1859-1945 outlines the history of European warfare from the Wars of German Unification to the end of the World War II. The title aside, the book is not to be another history of German military; it takes a much broader approach looking at political, social, economic, and military developments across Europe and the United States during the period. The "German War" part of the title is there because Germany plays the central part in the key element threading its way through this volume is the Industrial Revolution.

Nationalism in Europe 1789-1945 Timothy Baycroft 1998-10-01 This text analyzes nationalism in Europe from the French Revolution to the Second World War. Drawing on a wide range of examples, Timothy Baycroft explains what characterizes modern nations, what the theoretical roots of nationalism are, and what interaction there has been with other significant theories. The book also presents the overwhelming importance of nationalism in the development of modern European history.

A Concise History of Modern Europe David S. Mason 2011-01-16 Highlighting the most important events, ideas, and individuals that shaped modern Europe, A Concise History of Modern Europe provides a readable, succinct history of the continent from the end of the Middle Ages and the French Revolution to the present day. Avoiding a detailed, lengthy chronology, the book focuses on key events and ideas, the causes and consequences of revolutions—be they political, economic, or scientific; the origins and development of human rights; democracy; and issues of European identity. Any reader needing a broad overview of the sweep of European history since 1789 will find this book, published in a first edition under the title Revolutionary Europe, an engaging and cohesive narrative.

Europe Since 1945 Mary Fulbrook 2001 This text brings home the waves of transformation that have washed across Europe in the second half of the 20th century, sketching out general patterns of this change, and exploring some of the local themes and variations in Europe.

A Companion to Europe Since 1945 Larres 2014-01-07 A Companion to Europe Since 1945 provides a stimulating guide to

numerous important developments which have influenced the political, economic, social, and cultural character of Europe during the Cold War. Includes 22 original essays by an international team of expert scholars Examines the social, intellectual, economic and political changes that took place throughout Europe in the Cold War and Post Cold War periods Discusses a wide range including the Single Market, European-American relations, family life and employment, globalization, consumption, political parties European decolonization, European identity, security and defence policies, and Europe's fight against international terrorism Provides Europe in a broad geographical conception, to give equal weighting to developments in the Eastern and Western European states Postwar Tony Judt 2006-09-05 Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award One of the New York Times' Ten Best Books of the Year "Impressive . . . Mr. Judt writes with enormous authority." —The Washington Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The New York Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most eminent historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its details, Postwar is a rare joy. Judt's book, Ill Fares the Land, republished in 2021 featuring a new preface by bestselling author Tom Clancy and the World and Me and The Water Dancer, Ta-Nehisi Coates.

The European Economy Since 1945 Eichengreen 2008-07-21 In 1945, many Europeans still heated with coal, cooled their food with ice, and lacked indoor plumbing. This book presents an account of the extraordinary development of Europe's economy since World War II. It argues that the continent's history has been critical to its economic performance.

Germany, 1871-1945 Ruffael Scheck 2008-11-15 At the end of the Second World War, the first unified German state collapsed, leading to disintegration with European and global ramifications. Ever since, historians have sought to explain what went wrong in Germany. Many have focused on the violence which forged unification; others have highlighted the clash of authoritarian, anti-democratic Prussian and Semitic traditions with rapid industrialization and modernization. Germany, 1871-1945 presents a pragmatic interpretation of German history, from the unification to the end of the Nazi regime. This more open approach acknowledges the strong trend in Germany towards modernization and democratization, particularly before 1914, while also highlighting the factors which propelled Germany toward World War I. The rise of the Nazis also demands a close analysis of the economic and political instability of the 1920s and 1930s. Finally, a detailed assessment of the Third Reich explains how the regime's early successes fostered a loyalty and acceptance that remained hard to shake until disaster was obvious and unavoidable.

A Concise History of Hungary János Molnár 2001-04-30 A comprehensive history of the land, people, society, culture and economic development of Hungary.

Return to Diversity Joseph Rothschild 2000 Written by one of the world's foremost authorities on East Central Europe, Return to Diversity has proven to be an invaluable guide for readers of modern European history and politics. This third edition introduces a new author, Nancy M. Wingfield, and has been fully updated to take into account recent and ongoing developments in the region.

Concise Encyclopedia of World History Carlos Ramirez-Faria 2007 The Concise Encyclopedia of World History Offers The Global Reader, Reading Public, Students, And Professors A Handy, Complete, And Accurate Guide To All Political Formations Since The Beginning of Human History. It Reaches Into Pre-History Through The Inclusion Of The Important Families Of Languages Spoken Today. It Also Traces The Development Of Groups, Especially Nomadic, Which Have Been Influential In The Creation Of Civilizations And States. Europe Since 1945 Bernard A. Cook 2014-01-27 Europe Since 1945: An Encyclopedia is a comprehensive reference work of some 1,000 entries in two volumes. Its scope includes all of Europe and the successor states to the former Soviet Union. The volumes provide comprehensive coverage of topics, with an emphasis on politics, governments, organizations, people, and events crucial to an understanding of Europe. Also includes 100 maps and photos.

A Concise History of Germany Antony Fulbrook 1999

European Integration Mark Gilbert 2012 Rev. and updated ed. of: Surpassing realism: the politics of European integration since 1957 c2003.

A Concise History of the Second World War: Its Origin, Battles and Aftermath Richard Z. Eschmann, Jr.

A Political History of Western Europe Since 1945 Derek Urwin 2014-07-22 Taking a thematic approach, Derek Urwin addresses the major political and economic developments in western Europe since World War II, right up to the present day. The book covers the major developments in national politics, and the movement towards greater unity in Western Europe and the role of Europe in global politics in the international economy. The text has been revised throughout and updated to take account of the political consequences of the Cold War and the troubled progress of European integration since Maastricht. The Fifth Edition has lost nothing of its clarity and accessibility and in its updated form will win the book a host of new admirers.

A Concise History of Portugal David Birmingham 2003-11-13 This concise, illustrated history of Portugal offers an introduction to the people and culture of the country, its empire, and to its search for economic modernisation, political stability and international partnership. The book studies the effects of the vast wealth mined from Portuguese Brazil, the growth of the wine trade, and the development of international ties. The Portuguese Revolution of 1820 to 1851 created a liberal monarchy, but in 1910 the king was overthrown and a republic was proclaimed. In 1926, had been replaced by a dictatorship. In 1975 Portugal withdrew from its African colonies and turned north to become a democracy.

member of the European Community in 1986. Researched during the years which followed the fall of Portugal's dictators in book has become the standard single-volume work. The second edition brings the story up to date and discusses the state of writing on Portugal at the turn of the millennium.

The European Union Since 1945 Alasdair Blair 2014-05-12 The European Union faces a crossroads in the twenty-first century. While there is evidence of declining enthusiasm for European integration, the EU plays an increasingly vital role in tackling problems that can no longer be dealt with at member state level. In recent years, the EU has developed a stronger foreign, security and defence policy and had to face up to the challenges of tackling organised crime, human trafficking and drug smuggling. In this fully updated new edition Alasdair Blair examines the economic, political, social and personal factors that have shaped the process of European integration from the end of the Second World War until the Lisbon Treaty in 2009. Written in a clear and jargon-free style, the book explores: The process of European integration and expansion The relations between the European Union and its member states The institutional evolution of the European Union Methods of decision-making Key policies of the European Union The future direction of the European Union Comprehensive and accessible, this book is an essential guide to understanding the relevance of the European Union in the twenty-first century.

European Socialism William Smaldone 2013-08-08 This accessible text offers a concise but comprehensive introduction to European socialism, which arose in the maelstrom of the industrial and democratic revolutions launched in the eighteenth century. Striving for sweeping social, economic, cultural, and political change, socialists were a diverse lot. However, they were united by principles: the social and political equality of all people, ideas that won the adherence of millions and struck fear in the hearts of their many opponents. William Smaldone shows how, over the course of 200 years, socialists successfully promoted the democratization of society and a more equitable division of wealth. At the same time, he illustrates how conflicts over the means of achieving these goals divided them into rival "socialist" and "communist" currents, a rift that undercut the struggle against fascism and helped lay the groundwork for Europe's division during the Cold War. Although many predicted the demise of socialism as a potent force after the Cold War, the Soviet Union's dissolution, and the rise of neo-liberal ideology, recent developments show that such a judgment is premature. The author argues that the growth of new socialist parties across Europe indicates that socialist ideas remain viable in the face of capitalism's failure to solve chronic social and economic problems, especially following the deep global crisis that began in 2008. Combining an analytical narrative with a selection of primary texts and visual images, this book provides undergraduate students with a brief, readable history, including an overview of how socialist political movements have evolved over time and stressing the reasons that has characterized socialism's foundations from its beginning.

Twentieth-Century Europe 2014-02-03 Twentieth-Century Europe: A Brief History presents readers with a concise and accessible overview of the most significant themes and political events that shaped European history in the 20th and 21st centuries. Features updated include a new chapter that reviews major political and economic trends since 1989 and an extensively revised chapter that covers the intellectual and cultural history of Europe since World War II Organized into brief chapters that are suitable for traditional college classes in non-traditional courses that allow for additional material selected by the professor Includes the addition of a variety of supplemental materials such as chronological timelines, maps, and illustrations

World War II in Europe Marvin Perry 2012 WORLD WAR II IN EUROPE: A CONCISE HISTORY, International Edition offers readers a clear, engaging, clear, and comprehensive overview of the war that includes all of the key concepts, recent scholarship, and, where appropriate, conflicting interpretations, while avoiding the complex data and schemata that tend to overwhelm non-specialists. Special attention is given to the human experience during the war, including extensive coverage of the Holocaust, and numerous quotations from relevant sources are integrated throughout the narrative, bringing the events to life. The text also covers the war's lasting effects on European history as well as population transfers, the treatment of collaborators and war criminals, the ordeal of Jewish survivors, chaotic responses to the Nazi era, the emergence of the Cold War, and steps toward European integration.
