**Street Fonts** Claudia Walde 2018-01-18 Classic graffiti lettering and experimental typographical forms lie at the heart of street culture and have long inspired designers in many different fields. But graffiti artists, who tend to paint the same letters of their tag again and again, rarely design complete alphabets. Claudia Walde has spent over two years collecting alphabets by 154 artists from 30 countries with a view to showing the many different styles and approaches to lettering within the graffiti and street art cultures. All of the artists have roots in graffiti. Some are world renowned such as 123 Klan (Canada), Faith47 (South Africa) and Hera (Germany); others are lesser known or only now starting to emerge. Each artist received the same brief: to design all 26 letters of the Latin alphabet within the limits of a single page of the book. How they approached this task and selected the media with which to express their ideas was entirely up to them. The results are a fascinating insight into the creative process.

**Mend: A Story of Divorce** Sophia Recca 2019-05-10 Mend: A Story of Divorce is the first in a series of graphic novels written by young adults for their peers. Sophia, the fourteen-year-old author and protagonist, tells the heart-wrenching story of her parents' divorce. She was just nine years old, happy and enjoying life with her mom, dad, and little brother in Las Vegas, Nevada. Unexpectedly, one night, a violent argument disrupted her sleep and shattered her life. The next morning, her parents told her the dreaded news—they were getting divorced. Her dad was moving to California, while Sophia and her brother would stay with their mom. Any child who has experienced the trauma of divorce will understand Sophia's reactions: First, she blamed herself. But then, she remembered a note a teacher once wrote on her report card, and was inspired to focus on bringing both parents back into her life. Even if they could not be under the same roof, she thought, they could still share in caring for her and her brother. Sophia's story will resonate with children (and adults) who have faced a split in their family, or who have friends dealing with divorce. The book includes helpful advice for parents, as well as a special Teacher's Corner page. Zuiker Press is proud to publish stories about important current topics for kids and adolescents, written by their peers, that will help them cope with the challenges they face in today's troubled world.

**Graffiti Art Styles** Lisa Gottlieb 2014-01-10 This book presents a classification system for graffiti art styles that reflects the expertise of graffiti writers and the work of art historian Erwin Panofsky. Based on Panofsky's theories of iconographical analysis, the classification model is designed to identify the style of a graffiti art piece through its visual characteristics. Tested by image cataloguers in archives, libraries, and museums, the system assists information professionals in identifying the iconic styles of graffiti art pieces. It also demonstrates the power of Panofsky's theories to provide access to non-representational or abstract art images. The result is a new paradigm for Panofsky's theories that challenges the assumptions of traditional models. This innovative book is a valuable resource for anyone who wants to learn more about graffiti art and for information professionals concerned with both the practical and intellectual issues surrounding image access.

**Graffiti School** Chris Ganter 2013 Describes how to create graffiti, covering such topics as designing letters, using effects, and handling spray cans, and includes a teacher's manual that offers advice on planning lessons on the art's theories and practices.

**Flip the Script** Christian P. Acker 2013 Distinctive hand style lettering is an essential skill for artists and designers. Deftly executed hand crafted letter forms are a nearly forgotten art in an age of endless free fonts. Graffiti is one of the last reservoirs of highly refined, well practiced penmanship. The most reviled and persecuted form of Graffiti, the Tag, is seldom appreciated for the raw beauty of its skeletal letter forms. Most tags are removed immediately, and thus the casual viewer seldom has a chance to discern the difference between entry level and advanced hand styles. Within the pages of Flip the Script, author Christian Acker has systematically analyzed the best graffiti hand styles, contextualizing the work of graffiti writers from around the United States. Acker presents the various lettering samples in a clean organized format, giving the material a proper, formal treatment evoking classic typography books.

**LA Graffiti Black Book** David Brafman 2021-04-13 This collection of unique works by 150 Los Angeles graffiti and tattoo artists represents an unprecedented collaboration across the city's diverse artistic landscape. Many graffiti artists carry sketchbooks, called black books, and they ask crew members and others whose work they admire to inscribe their books with lettering or drawings. A few years ago, the Getty Research Institute invited artists, including Angst, Axis, Big Sleeps, Chaz, Cre8, Defer, EyeOne, Fische, Heaven, Hyde, Look, ManOne, and Prime, to consider the idea of a citywide graffiti black book. During visits to the Getty Center, the artists viewed rare books related to calligraphy and letterforms, including works by Albrecht Dürer and Leonardo da Vinci. The artists instantly recognized the connections to their own practices and were particularly drawn to a liber amicorum (book of friends), a form of autograph book popular in the seventeenth century. Passed from hand to hand, it was filled with signatures, poetry, and coats of arms, like a black book from another era. Inspired by this meeting of minds across centuries, these artists became both creators and curators, crafting their own pages and inviting others to contribute. Eventually 150 Los Angeles artists decorated 143 individual pages. These were bound together into an exquisite artists' book that became known as the Getty Graffiti Black Book. This publication reproduces each page from the original artists' book and recounts the story of an unprecedented collaboration across the diverse artistic landscape of Los Angeles.

**Graffiti New York** Eric Felibret 2009-10 Presents the history of graffiti art in New York City, detailing the concepts, aesthetics, ideals, and social structures that have served as a cultural blueprint for graffiti movements across the world.

**Equity by Design** Mirko Chardin 2020-07-20 When it comes to the hard work of reconstructing our schools into places where every student has the opportunity to succeed, Mirko Chardin and Katie Novak are absolutely convinced that teachers should serve as our primary architects. And by "teachers" they mean legions of teachers working in close collaboration. After all, it's teachers who design students' learning experiences, who build student relationships . . . who ultimately have the power to change the trajectory of our students' lives. Equity by Design is intended to serve as a blueprint for teachers to alter the all-too-predictable outcomes for our historically under-served students. A first of its kind resource, the book makes the critical link between social justice and Universal Design for Learning (UDL) so that we can equip students (and teachers, too) with the will, skill, and collective capacity to enact positive change. Inside you'll find: Concrete strategies for designing and delivering a culturally responsive, sustainable, and equitable framework for all students Rich examples, case studies, and implementation spotlights of educators, students (including Parkland survivors), and programs that have embraced a social justice imperative Evidence-based application of best practices for UDL to create more inclusive and equitable classrooms A flexible format to facilitate use with individual teachers, teacher teams, and as the basis for whole-school implementation "Every student," Mirko and Katie insist, "deserves the opportunity to be successful regardless of their zip code, the color of their skin, the language they speak, their sexual and/or gender identity, and whether or not they have a disability." Consider Equity by Design a critical first step forward in providing that all-important opportunity. "Our calling is to drop our egos, commit to removing barriers, and treat our learners with the unequivocal respect and dignity they deserve." ~Mirko Chardin and Katie Novak

**Faith Ed** Linda K. Wertheimer 2016-08-23 An intimate cross-country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth-grade field trip. The class was visiting a mosque to learn about world religions when a handful of boys, unnoticed by their teachers, joined the line of worshippers and acted out the motions of the Muslim call to prayer. A video of the prayer went viral with the title "Wellesley, Massachusetts Public School Students Learn to Pray to Allah." Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren. Wellesley school officials defended the course, but also acknowledged the delicate dance teachers must perform when dealing with religion in the classroom. Courts long ago banned public school teachers from preaching of any kind. But the question remains: How much should schools teach about the world's religions? Answering that question in recent decades has pitted schools against their communities. Veteran education journalist Linda K. Wertheimer spent months with that class, and traveled to other communities around the nation, listening to voices on all sides of the controversy, including those of clergy, teachers, children, and parents who are Muslim, Jewish, Christian, Sikh, or atheist. In Lumberton, Texas, nearly a hundred people filled a school-board meeting to protest a teacher's dress-up exercise that allowed freshman girls to try on a burka as part of a lesson on Islam. In Wichita, Kansas, a Messianic Jewish family's opposition to a bulletin-board display about Islam in an elementary school led to such upheaval that the school had to hire extra security. Across the country, parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths. But in Modesto, a city in the heart of California's Bible Belt, teachers have avoided problems since 2000, when the school system began requiring all high school freshmen to take a world religions course. Students receive comprehensive lessons on the three major world religions, as well as on Sikhism, Hinduism, Buddhism, and often Shintoism, Taoism, and Confucianism. One Pentecostal Christian girl, terrified by "idols," including a six-inch gold Buddha, learned to be comfortable with other students' beliefs. Wertheimer's fascinating investigation, which includes a return to her rural Ohio school, which once ran weekly Christian Bible classes, reveals a public education system struggling to find the right path forward and offers a promising roadmap for raising a new generation of religiously literate Americans.

**Training Days: The Subway Artists Then and Now** Henry Chalfant 2014-10-14 Authentic first-person accounts from the graffiti artists whose creative genius fueled the movement from its beginning in late 1970s and early 1980s New York Late 1970s New York City was bankrupt and its streets dirty and dangerous. But they had a wild, raw energy that made it the crucible for the birth of rap culture and graffiti. Graffiti writers worked in extremely tough conditions: uncollected garbage, darkness, cramped spaces, and the constant threat of police raids, assault by security staff and attacks by rival crews. It was not unlike practicing performance art in a war zone. Yet during the fertile years of the late 1970s and 1980s they evolved their art from stylized signatures to full-blown Technicolor dreamscapes. Henry Chalfant created panoramic images of painted trains by photographing overlapping shots along the train's length. It took time to earn the writers' trust and respect, but Chalfant became their revered confidant and with Tony Silver went on to produce the classic documentary film *Style Wars* (1983). Through a series of interviews conducted by Sacha Jenkins, we hear the voices of these characters of old New York. Quite a few of the original writers are no longer with us, but those who have survived have continued to push the envelope as artists and individuals in a new millennium. The stories they tell, included here alongside iconic, raw photographs of their work, will enthrall graffiti fans everywhere.

**Funds of Knowledge** Norma Gonzalez 2006-04-21 The concept of "funds of knowledge" is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents "how to do school" although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. *Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms* is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.

**Homeboyz** Alan Lawrence Sitomer 2018-12-04 When Teddy Anderson's little sister Tina is gunned down randomly in a drive-by shooting, the gangstas who rule the streets in the Anderson family's rapidly deteriorating neighborhood dismiss the incident as just another case of RP, RT???wrong place, wrong time. According to gangsta logic, Tina doesn't even count as a statistic. Teddy's family is devastated. Mrs. Anderson sinks into deep depression while Pops struggles to run both the household and his declining laundry business. The Andersons are shocked still further when Teddy is arrested and thrown in prison for attempted homicide after his elaborately laid plans for revenge against his sister's killer are foiled by the cops. Teddy soon finds himself out of prison on house arrest, and in the capable hands of Officer Mariana Diaz, the smart, tough probation officer assigned to oversee his endless hours of community service. As part of the innovative rehabilitation program Diaz runs, Teddy is assigned to tutor Micah, a twelve-year-old orphan and would-be gansta. As Teddy goes through the motions of complying with the terms of his probation, Diaz has no idea that he is using his genius-level computer hacker skills to plot his final vengeance and to defraud the state education system of hundreds of thousands of dollars. But even though Teddy thinks he knows it all, he fails to see how Micah's desperate need for love and trust just might have the power not only to pierce all Teddy's defenses, but to save his family.

**Alphabeatz** Woshe 2019-08-20 Graffiti writing was born in the streets of Philadelphia in the late 1960s. But it was in New York in the early 1970s that it became a full-fledged urban art, gradually taking over the landscape of the city, from its walls to its subway cars. This is a writing manual, a detailed examination of how graffiti writers have developed the twenty-six letters of the alphabet. It includes the contribution of ten of the international scene's most talented creators answer Woshe's questions about matters that include their practice, their relationship with letters and their backgrounds. It includes a map of New York with the sites where the most important graffiti are located.

**Locking Up Our Own** James Forman, Jr. 2017-04-18 In recent years, America's criminal justice system has become the subject of an increasingly urgent debate. Critics have assailed the rise of mass incarceration, emphasizing its disproportionate impact on people of color. As James Forman, Jr., points out, however, the war on crime that began in the 1970s was supported by many African American leaders in the nation's urban centers. In *Locking Up Our Own*, he seeks to understand why. Forman shows us that the first substantial cohort of black mayors, judges, and police chiefs took office amid a surge in crime and drug addiction. Many prominent black officials, including Washington, D.C. mayor Marion Barry and federal prosecutor Eric Holder, feared that the gains of the civil rights movement were being undermined by lawlessness—and thus embraced tough-on-crime measures, including longer sentences and aggressive police tactics. In the face of skyrocketing murder rates and the proliferation of open-air drug markets, they believed they had no choice. But the policies they adopted would have devastating consequences for residents of poor black neighborhoods. A former D.C. public defender, Forman tells riveting stories of politicians, community activists, police officers, defendants, and crime victims. He writes with compassion about individuals trapped in terrible dilemmas—from the men and women he represented in court to officials struggling to respond to a public safety emergency. *Locking Up Our Own* enriches our understanding of why our society became so punitive and offers important lessons to anyone concerned about the future of race and the criminal justice system in this country.

**Doing School** Denise Clark Pope 2008-10-01 This book offers a highly revealing and troubling view of today's high school students and the ways they pursue high grades and success. Denise Pope, veteran teacher and curriculum expert, follows five motivated and successful students through a school year, closely shadowing

them and engaging them in lengthy reflections on their school experiences. What emerges is a double-sided picture of school success. On the one hand, these students work hard in school, participate in extracurricular activities, serve their communities, earn awards and honours, and appear to uphold school values. But on the other hand, they feel that in order to get ahead they must compromise their values and manipulate the system by scheming, lying, and cheating. In short, they do school, that is, they are not really engaged with learning nor can they commit to such values as integrity and community. The words and actions of these five students - two boys and three girls from diverse ethnic and socioeconomic backgrounds - underscore the frustrations of being caught in a grade trap that pins future success to high grades and test scores. Their stories raise critical questions that are too important for parents, educators, and community leaders to ignore. Are schools cultivating an environment that promotes intellectual curiosity, cooperation, and integrity? Or are they fostering anxiety, deception, and hostility? Do today's schools inadvertently impede the very values they claim to embrace? Is the success that current assessment practices measure the kind of success we want for our children?

**The Brilliant History of Color in Art** Victoria Finlay 2014-11-01 The history of art is inseparable from the history of color. And what a fascinating story they tell together: one that brims with an all-star cast of characters, eye-opening details, and unexpected detours through the annals of human civilization and scientific discovery. Enter critically acclaimed writer and popular journalist Victoria Finlay, who here takes readers across the globe and over the centuries on an unforgettable tour through the brilliant history of color in art. Written for newcomers to the subject and aspiring young artists alike, Finlay's quest to uncover the origins and science of color will beguile readers of all ages with its warm and conversational style. Her rich narrative is illustrated in full color throughout with 166 major works of art—most from the collections of the J. Paul Getty Museum. Readers of this book will revel in a treasure trove of fun-filled facts and anecdotes. Were it not for Cleopatra, for instance, purple might not have become the royal color of the Western world. Without Napoleon, the black graphite pencil might never have found its way into the hands of Cézanne. Without mango-eating cows, the sunsets of Turner might have lost their shimmering glow. And were it not for the pigment cobalt blue, the halls of museums worldwide might still be filled with forged Vermeers. Red ochre, green earth, Indian yellow, lead white—no pigment from the artist's broad and diverse palette escapes Finlay's shrewd eye in this breathtaking exploration.

**My Broken Language** Quiara Alegría Hudes 2021-04-06 GOOD MORNING AMERICA BUZZ PICK • The Pulitzer Prize-winning playwright and co-writer of *In the Heights* tells her lyrical story of coming of age against the backdrop of an ailing Philadelphia barrio, with her sprawling Puerto Rican family as a collective muse. **ONGLISTED FOR THE ANDREW CARNEGIE MEDAL** • "Quiara Alegría Hudes is in her own league. Her sentences will take your breath away. How lucky we are to have her telling our stories."—Lin-Manuel Miranda, award-winning creator of *Hamilton* and *In the Heights* Quiara Alegría Hudes was the sharp-eyed girl on the stairs while her family danced their defiance in a tight North Philly kitchen. She was awed by her mother and aunts and cousins, but haunted by the unspoken, untold stories of the barrio—even as she tried to find her own voice in the sea of language around her, written and spoken, English and Spanish, bodies and books, Western art and sacred altars. Her family became her private pantheon, a gathering circle of powerful orisha-like women with tragic real-world wounds, and she vowed to tell their stories—but first she'd have to get off the stairs and join the dance. She'd have to find her language. Weaving together Hudes's love of music with the songs of her family, the lessons of North Philly with those of Yale, this is a multitythmic dive into home, memory, and belonging—narrated by an obsessed girl who fought to become an artist so she could capture the world she loved in all its wild and delicate beauty.

**The Stencil Graffiti Handbook** Tristan Manco 2020-03-26 With current political and cultural climates across the globe growing more uncertain, a new generation of artists, designers, and communicators are using stencil art on the walls of towns and cities to voice thought-provoking messages and ideas. Exploring the medium's applications within grassroots activism and the contemporary craft scene, Tristan Manco returns to the streets and brings this thriving art form to life. Exploring both process and results, this book delves into stencil art's essential elements—place, space, technique, and subjects—before taking to the streets to see how, where, and why stencil graffiti is exhibited. Having accumulated an extensive network of street art contacts through more than two decades of immersion in the scene, Manco has scoured the globe for today's most interesting stencil artists—those who operate outside the mainstream market of "urban art" and beneath the radar of everyone but the truly aware. Featuring studio visits with artists and step-by-step instructional illustrations by the renowned Columbian art collective Stinkfish, *The Stencil Graffiti Handbook* is a must-have for anyone with an open mind and rebellious spirit.
