The Tribulations of Ross Young, Supernat PA Aj Sherwood 2021-05-27 "Company policy forbids me from exchanging my blood, my soul, or my firstborn child with customers..." When Ross starts working third-shift at a gas station, he doesn't think anything extraordinary will happen. He expects a lot of quiet shifts. Well, you know what they say about assumptions. One explosion later and he's the personal assistant to a vampire—who he admits is not only sexy, but the sane one-in charge of his supernatural clan's paperwork, and managing any trouble the members get into. Spoiler alert: the clan can get into quite a bit of trouble. Ross is definitely not paid enough for this. Tags: The crack ship armada sails again, and then it got out of hand, poor put upon retail workers, Ross didn't deserve this, Fate is cruel, so am I, the trauma of changing jobs, Ross has a paperclip and knows how to use it, Ross isn't clear if he's a PA, bartender, or babysitter, troublesome werewolves, Australian wizards, spells gone awry, very awry, sexy vampires, developing relationship, coming out, not a single degree of chill from Glenn where Ross is concerned, slow burn, boss/secretary, light bondage, Ross has to teach ancient mythical beings how to text, pray for him, SHENANIGANS, did I mention crack?, the most absurd workplace romance in history

Slave Stealers Timothy Ballard 2018-09-04 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After

the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Digital Storytelling in the Classroom Jason B. Ohler 2013-03-26 Harness digital storytelling as a powerful tool to teach traditional and 21st-century literacy skills to help students reach deeper understandings in all areas of the curriculum!

Special Educational Needs and Inclusive Practices Fabio Dovigo 2017 Today, school is becoming a rapidly changing learning environment. Thinking about students as a homogeneous population is no longer allowed, as diversity - in terms of culture, language, gender, family organisation, learning styles and so on - has emerged as a key challenge for education today. The debate on Special Educational Needs largely reflects this challenge, as working in school implies careful reconsideration of what we mean by "normal" and "special." Current educational intervention is generally based on a deficit and "within-child" model of facing SEN, whereas very little attention is given to the role of learning environments. The focus is on the child more than on the whole class, and on cognition and technical provisions more than on affective, sociocultural and community dimensions of learning. Conversely, regarding students and their needs as "hidden voices" allows us to adopt a transformative approach which sees diversity as a stimulus for the development of educational practices that might benefit all children and help school to become an inclusive and "moving" organisation. The aim of the book is twofold: on the one hand, it offers a systematic overview of the inclusive education state-of-the-art in six countries (Germany, Italy, Norway, Sweden, UK, and USA) based on the contributions by well-known scholars such as Christy Ashby, Barbara Brokamp, Fabio Dovigo, Kari Nes, Mara Westling Allodi, Tony Booth, and Beth Ferri; on the other hand, the book analyses five cases of good practices of inclusion related to different subjects and school levels.

Radio Frequency and Microwave Electronics Illustrated Matthew M. Radmanesh 2001 Foreword by Dr. Asad Madni, C. Eng., Fellow IEEE, Fellow IEE Learn the fundamentals of RF and microwave electronics visually, using many thoroughly tested, practical examples RF and microwave technology are essential throughout industry and to a world of new applications--in wireless communications, in Direct Broadcast TV, in Global Positioning System (GPS), in healthcare, medical and many other sciences. Whether you're seeking to strengthen your skills or enter the field for the first time, Radio Frequency and Microwave Electronics Illustrated is the fastest way to master every key measurement, electronic, and design principle you need to be effective. Dr. Matthew Radmanesh uses easy mathematics and a highly graphical approach with scores of examples to bring about a total comprehension of the subject. Along the way, he clearly introduces everything from wave propagation to impedance matching in transmission line circuits, microwave linear amplifiers to hard-core nonlinear active circuit design in Microwave Integrated Circuits (MICs). Coverage includes: A scientific framework for learning RF and microwaves easily and effectively Fundamental RF and microwave concepts and their applications The characterization of two-port networks at RF and microwaves using S-parameters Use of

the Smith Chart to simplify analysis of complex design problems Key design considerations for microwave amplifiers: stability, gain, and noise Workable considerations in the design of practical active circuits: amplifiers, oscillators, frequency converters, control circuits RF and Microwave Integrated Circuits (MICs) Novel use of "live math" in circuit analysis and design Dr. Radmanesh has drawn upon his many years of practical experience in the microwave industry and educational arena to introduce an exceptionally wide range of practical concepts and design methodology and techniques in the most comprehensible fashion. Applications include small-signal, narrow-band, low noise, broadband and multistage transistor amplifiers; large signal/high power amplifiers; microwave transistor oscillators, negative-resistance circuits, microwave mixers, rectifiers and detectors, switches, phase shifters and attenuators. The book is intended to provide a workable knowledge and intuitive understanding of RF and microwave electronic circuit design. Radio Frequency and Microwave Electronics Illustrated includes a comprehensive glossary, plus appendices covering key symbols, physical constants, mathematical identities/formulas, classical laws of electricity and magnetism, Computer-Aided-Design (CAD) examples and more. About the Web Site The accompanying web site has an "E-Book" containing actual design examples and methodology from the text, in Microsoft Excel environment, where files can easily be manipulated with fresh data for a new design.

Scrivere per il web 2.0 Alessandro Scuratti 2015-07-15 Alessandro Scuratti (con Alessandro Cuomo) Scrivere per il web 2.0. Come fare content marketing che funziona NUOVA EDIZIONE 2015 Così come esistono delle regole per la scrittura tradizionale su carta, ne esistono anche per il web writing, cioè per la scrittura sul web. In effetti, ogni volta che scriviamo online, stiamo comunicando su un mezzo che ha caratteristiche particolari, differenti da quelle di tutti gli altri media. Lo si capisce già dal fatto che i testi per Internet si chiamano "contenuti", e che non siano semplicemente composti da parole, ma anche da link, da immagini e da video. La scrittura per il web è in sostanza un mondo a sé rispetto alla scrittura tradizionale. Questo ebook fa luce su quelle che sono le norme per scrivere online in maniera efficace. Dedicato idealmente a tutti gli studenti universitari che desiderino avvicinarsi alle professioni legate alla comunicazione sul web, il presente lavoro è in realtà utile anche ai marketer che vogliono comprendere come sfruttare più efficacemente la presenza online delle loro aziende, migliorando il modo in cui comunicano attraverso il sito e il blog aziendali. Scritto in modo diretto e con uno stile pragmatico, l'ebook mira a trasferire ai lettori tutte le norme che regolano il web writing, con l'intento di renderle da subito riutilizzabili. Nonostante il campo di applicazione del web writing sia pressoché sterminato, il testo si è posto l'obiettivo di analizzarlo ampiamente. Il risultato di questo sforzo è che gli autori trattano vari tipi di scrittura per il web, da quella per i social network a quella dei siti di e-commerce, da quella per i blog a quella per le campagne di e-mail marketing. Un capitolo dell'ebook è inoltre dedicato alla SEO, cioè alla Search Engine Optimization e alle influenze che tale disciplina esercita sulla creazione di contenuti online. La progettazione dei cosiddetti "contenuti di qualità" non può infatti prescindere dalla conoscenza di alcuni dettagli squisitamente tecnici, che vengono qui presentati in modo semplice e chiaro.

Stuck in Paris Nikki Khanna 2020-09 Riley Blakely and the remainder of Grandview High's french class is heading out on a school trip to Paris. The three weeks in Paris are supposed to be an 'educational opportunity' for this lot. But of course, these hormonal teenagers just cannot abide by the rules. The one rule set by their lovely Mr. Walker: You cannot room with somebody of the opposite gender. So what does this french class do? Room with the opposite gender, with a funny way of picking roommates. Chit picking. Because hormonal teenagers can just never get enough. Insert Asher West. Her not so secret annoying hater. It's a hate-hate relationship. He's the

guy who picked Riley's name. He's the most popular guy in the freaking school and Riley? Not so much. Put the two together and you'll get a whole lot of arguments and awkward moments. They're roommates and they're stuck in Paris, the city of love and the city of lights

Bezoar Guadalupe Nettel 2020-08-11 One of the most important and watched writers of today. Intricately woven masterpieces of craft, mournful for their human cries in defiance of our sometimes less than human surroundings, Nettel's stories and novels are dazzlingly enjoyable to read for their deep interest in human foibles. Following on the critical successes of her previous books, here are six stories that capture her unsettling, obsessive universe. "Ptosis" is told from the point of view of the son of a photographer whose work involves before and after pictures of patients undergoing cosmetic eye surgeries. In "Through Shades," a woman studies a man interacting with a woman through the windows of the apartment across the street. In one of the longer stories, "Bonsai," a man visits a garden, and comes to know a gardener, during the period of dissolution of his marriage. "The Other Side of the Dock" describes a young girl in search of what she terms "True Solitude," who finds a fellow soul mate only to see the thing they share lose its meaning. In "Petals," a woman's odor drives a man to search for her, and even to find her, without quenching the thirst that is his undoing. And the title story, "Bezoar," is an intimate journal of a patient writing to a doctor. Each narrative veers towards unknown and dark corridors, and the pleasures of these accounts lie partly in the great surprise of the familiarity together with the strangeness.

Letters of C. G. Jung C.G Jung 2015-06-05 In May 1956, in his eighty-second year, Jung first discussed with Gerhard Adler the question of the publication of his letters. Over many years, Jung had often used the medium of letters to communicate his ideas to others and to clarify the interpretation of his work, quite apart from answering people who approached him with genuine problems of their own and simply corresponding with friends and colleagues. Many of his letters thus contain new creative ideas and provide a running commentary on his work. From some 1,600 letters written by Jung between the years 1906-1961, the editors have selected over 1,000. Volume 2 contains 460 letters written between 1951 and 1961, during the last years of Jung's life, when he was in contact with many people whose names are familiar to the English reader. These include Mircea Eliade, R.F.C. Hull, Ernest Jones, Herbert Read, J.B. Rhine, Upton Sinclair and Fr. Victor White. Volume 2 also contains an addenda with sixteen letters from the period 1915-1946 and a subject index to both volumes. The annotation throughout is detailed and authoritative.

The Fourth Revolution Luciano Floridi 2014-06-26 Who are we, and how do we relate to each other? Luciano Floridi, one of the leading figures in contemporary philosophy, argues that the explosive developments in Information and Communication Technologies (ICTs) is changing the answer to these fundamental human questions. As the boundaries between life online and offline break down, and we become seamlessly connected to each other and surrounded by smart, responsive objects, we are all becoming integrated into an "infosphere". Personas we adopt in social media, for example, feed into our 'real' lives so that we begin to live, as Floridi puts in, "onlife". Following those led by Copernicus, Darwin, and Freud, this metaphysical shift represents nothing less than a fourth revolution. "Onlife" defines more and more of our daily activity - the way we shop, work, learn, care for our health, entertain ourselves, conduct our relationships; the way we interact with the worlds of law, finance, and politics; even the way we conduct war. In every department of life, ICTs have become environmental forces which are creating and transforming our realities. How can we ensure that we shall reap their benefits? What are the implicit risks? Are our technologies going to enable and empower us, or constrain us? Floridi argues that we must expand our ecological and ethical approach to cover both natural and man-made realities, putting the 'e' in an environmentalism that can deal successfully with the new challenges posed by our digital technologies and

information society.

Education and Intercultural Identity Zygmunt Bauman 2021-03-11 *Education and Intercultural Identity* offers a dialogue between influential authors Zygmunt Bauman and Agostino Portera that reflects on and discusses contemporary events and issues relating to the crisis of global normativity, education and intercultural identity. Centered around a previously unpublished dialogue between Bauman and Portera, the book contains an extended introduction by Riccardo Mazzeo that traces key themes in the dialogue and highlights the importance of education in our globalized world. The book highlights that intercultural and multicultural education is the best developed model to meet modern day challenges that include religious pluralism, pollution, and conflict. It also contains timely material relating to significant issues affecting society today; including the refugee crisis, rising authoritarian nationalism, and the risks and challenges of globalisation and sustainability. This book will be of great interest for academics, scholars and students in the fields of intercultural education, sociology and the sociology of education.

Out of Now, updated edition Adrian Heathfield 2015-08-07 *Now in paperback*, an updated edition of a visually stunning documentary record and critical account of Tehching Hsieh's epic performance works. In the vibrant downtown Manhattan art scene of the late 1970s and early 1980s, the Taiwanese-American artist Tehching Hsieh made a series of extraordinary performance art works. Between September 1978 and July 1986, Hsieh realized five separate one-year-long performance pieces in which he conformed to simple but highly restrictive rules throughout each entire year. Through the course of these lifeworks, Hsieh moved from a year of solitary confinement in a sealed cell to a year in which he punched a worker's time clock in his studio every hour on the hour to a year spent living without shelter in Manhattan to a year in which he was tied by an eight-foot rope to the artist Linda Montano and finally to a year of total abstention from all art activities and influences. In 1986 Hsieh announced that he would spend the next thirteen years making art but not showing it publicly. When this "final" lifework—an immense act of self-affirmation and self-erasure—came to a close at the turn of the millennium, he tersely and enigmatically said that during this time he had simply kept himself alive. After years of near-invisibility, Hsieh collaborated with the British writer and curator Adrian Heathfield to create this meticulous and visually arresting documentary record of the complete body of Tehching Hsieh's performance projects from 1978 to 1999. This milestone volume is now available again, in a paperback edition featuring the full text and all the illustrations in the hardcover, with an updated list of Hsieh's exhibitions. Copublished with the Live Art Development Agency, London.

Condominium of the Flesh Valerio Magrelli 2015-08-06 A darkly humorous exploration of the human body and its various functions in poetic prose, Valerio Magrelli's *The Condominium of the Flesh*, a personal chronicle of his clinical experience, catalogues a life history of ailments without ever being pathological.

Usa il neuromarketing per il tuo business Phil Maxwell 2015-02-06 Quando acquisti qualcosa, che sia un prodotto o un servizio, secondo te lo fai consciamente? Ognuno di noi tenderebbe a rispondere "Certo, io so sempre cosa faccio", ma la realtà è molto diversa. I nostri meccanismi mentali sono dominati da processi inconsci e non razionali, esperienze passate, abitudini, percezioni, emozioni. Quando viviamo un'esperienza d'acquisto come clienti la nostra decisione dipende dalle reazioni emozionali del nostro inconscio, del cervello ancestrale o cervello "primitivo". È quel cervello che comanda. Questo libro offre tutti gli strumenti per chi vuole migliorare il proprio business e orientare la propria azienda, il proprio prodotto o servizio sempre di più verso il cliente. Grazie agli strumenti del neuromarketing ognuno potrà imparare a creare una customer experience positiva che è fondamentale non solo come processo di vendita ma soprattutto come processo di creazione di valore relazionale ed emozionale.

Word Knowledge and Word Usage Vito Pirrelli 2020-04-20 Word storage and processing define a multi-factorial domain of scientific inquiry whose thorough investigation goes well beyond the boundaries of traditional disciplinary taxonomies, to require synergic integration of a wide range of methods, techniques and empirical and experimental findings. The present book intends to approach a few central issues concerning the organization, structure and functioning of the Mental Lexicon, by asking domain experts to look at common, central topics from complementary standpoints, and discuss the advantages of developing converging perspectives. The book will explore the connections between computational and algorithmic models of the mental lexicon, word frequency distributions and information theoretical measures of word families, statistical correlations across psycho-linguistic and cognitive evidence, principles of machine learning and integrative brain models of word storage and processing. Main goal of the book will be to map out the landscape of future research in this area, to foster the development of interdisciplinary curricula and help single-domain specialists understand and address issues and questions as they are raised in other disciplines.

44 Letters From the Liquid Modern World Zygmunt Bauman 2013-04-17 This liquid modern world of ours, like all liquids, cannot stand still and keep its shape for long. Everything keeps changing - the fashions we follow, the events that intermittently catch our attention, the things we dream of and things we fear. And we, the inhabitants of this world in flux, feel the need to adjust to its tempo by being 'flexible' and constantly ready to change. We want to know what is going on and what is likely to happen, but what we get is an avalanche of information that threatens to overwhelm us. How are we to sift the information that really matters from the heaps of useless and irrelevant rubbish? How are we to derive meaningful messages from senseless noise? We face the daunting task of trying to distinguish the important from the insubstantial, distil the things that matter from false alarms and flashes in the pan. Nothing escapes scrutiny so stubbornly as the ordinary things of everyday life, hiding in the light of deceptive and misleading familiarity. To turn them into objects of attention and scrutiny, they must first be torn out from that daily routine: the apparently familiar must be made strange. This is precisely what Zygmunt Bauman seeks to do in these 44 letters: each tells a story drawn from ordinary lives, but tells it in order to reveal an extraordinariness that we might otherwise overlook. Arresting, revealing, disconcerting, these snapshots of life by the most brilliant analyst of our liquid modern world will appeal to a wide readership.

Caught in the Net Kimberly S. Young 1998-02-27 "I don't even help [my children] with their homework in the evening because I'm in the chat rooms, and I don't help put them to bed because I don't realize how late it is. I also don't help them get

ready for school in the morning like I used to do because I'm checking my e-mail. And I just can't stop myself."-Raymond, an Internet addict. Internet addiction is real. Like alcoholism, drug addiction, or compulsive gambling, it has devastating effects on the lives of addicts and their families: divorce, job loss, falling productivity at work, failure in school, and, in extreme cases, criminal behavior. The problem has already reached epidemic proportions in the United States, and the number of "netaholics" continues to grow rapidly as more households and businesses go on-line. Yet, until now, no one from the mental health community has come forward with a specific description of Internet addiction and its effects or a strategy for treatment and recovery. In *Caught in the Net*, Kimberly Young shares the results of her three-year study of Internet abuse. Often using the words of the Internet addicts themselves, she presents the stories of dozens of lives that were shattered by an overwhelming compulsion to surf the Net, play MUD games, or chat with distant and invisible neighbors in the timeless limbo of cyberspace. Why is the Internet so seductive? What are the warning signs of Internet addiction? Is recovery possible? Dr. Young answers these questions and many more. She provides a questionnaire to help Net users determine whether they are addicts, and offers concrete steps to help problem users regulate Internet usage and devise a more balanced place for it in their daily lives. For Internet addicts as well as their parents, spouses, friends, and employers, *Caught in the Net* offers guidance on where and how to seek help from counselors, therapists, and other professionals who take this affliction seriously. For mental health professionals, this book provides insights into the nature and causes of Internet addiction and encourages counselors and therapists to expand their addiction recovery programs to address the specific problems of Internet addicts. "Think that computer addiction is a joke? Think again. This groundbreaking book is the first to explore on-line addiction in a serious way and to consider the effects on individuals and their families. *Caught in the Net* is an important book for anyone who spends mornings and evenings connected to the Net."-Clifford Stoll, author of *The Cuckoo's Egg* and *Silicon Snake Oil*. "An excellent account of the dangers of the burgeoning Internet industry. Dr. Young carefully outlines the traps into which people can fall and offers pragmatic self-help suggestions. *Caught in the Net* is valuable for both consumers and the professionals who deal with them."-Maressa Hecht Orzack, PhD, Founder and Coordinator, Computer Addiction Services, McLean Hospital Lecturer, Harvard University Medical School "I don't mean to spend all my time this way, but I can't stop. It's the only place my opinion matters and I feel important."-bobage38.automechanic.internet.addict "I feel guilty about it, but when I tried to break free, I simply didn't have the strength....I'm a long-time smoker, but I've found the craving to go on the Internet first thing every morning is stronger than my urge to light a cigarette."-marylouage40.motheroffour.internet.addict "When you're talking about the Internet, you're talking about power. It's the most powerful information tool I have ever known. When I explore the on-line world, I feel like that robot in the movie *Short Circuit*. I need more input! More input!"-daveage28.militarytelecommunicationsexpert.internet.addict "I feel the rush every time my mind gets connected to this intensely powerful information whirlpool. Meatball Sundae Seth Godin 2011-02-03 What is a meatball sundae? It's something messy, disgusting and ineffective, the result of combining two perfectly good things that don't go together. Meatballs are the basic staples, the things people need, the stuff that used to be marketed quite well with TV and other mass market techniques. The topping is new marketing: MySpace, websites, YouTube, and all of the magic that CEOs wish would shine atop their companies. The problem? New marketing is lousy at selling meatballs. When confronted with the myriad opportunities presented by new

marketing, people usually ask 'How can we make this stuff work for us?' This, as Seth Godin explains in his remarkable new book, is exactly the wrong question. Mapping out 14 trends that are completely remaking what it means to be a marketer - and by extension transforming what we make and how we make it - Godin shows how the question for any thriving 21st century business must be: 'How can we alter our business to become an organization that thrives on new marketing?' Meatball Sundae is an essential guide to the fundamental shift taking place in the marketing and business world, and shows you how to align your business to it.

Storytelling Christian Salmon 2017-01-31 The narrative spell cast over politics and society Politics is no longer the art of the possible, but of the fictive. Its aim is not to change the world as it exists, but to affect the way that it is perceived. In Storytelling Christian Salmon looks at the twenty-first-century hijacking of creative imagination, anatomizing the timeless human desire for narrative form, and how this desire is abused by the marketing mechanisms that bolster politicians and their products: luxury brands trade on embellished histories, managers tell stories to motivate employees, soldiers in Iraq train on Hollywood-conceived computer games, and spin doctors construct political lives as if they were a folk epic. This "storytelling machine" is masterfully unveiled by Salmon, and is shown to be more effective and insidious as a means of oppression than anything dreamed up by Orwell.

Quantitative Methods for Business Decisions Jon Curwin 2013-01-21 Provides students with all the tools they need to pass the typical Quantitative Methods course. Saying No Asha Phillips 2008 Asha Phillips writes as both a child psychotherapist and a mother, using case studies as well as informal anecdotes from family and friends as illustrations. She strips away the negative associations surrounding the word 'no' and celebrates change and setting limits as essential ingredients in development. In a new introduction, Asha Phillips explains why the idea of limits and boundaries have become ever more pertinent since the book was first published. Now with a new chapter on illness in the family, Saying No can continue to build confidence and self-esteem in both children and parents.

Aging and Biography Gary Kenyon, PhD 2004-01-01 Personal life narratives can serve as a rich source of new insights into the experience of human aging. In this comprehensive volume, an international team of editors and contributors provide effective approaches to using biography to enhance our understanding of adult development. In addition to providing new theoretical aspects on aging and biography, the book also details new developments concerning the practical use of different biographical approaches in both research and clinical work. This is a landmark volume advancing the use of narrative approaches in gerontology.

Defying Standardization Christopher H. Tienken 2016-11-30 Defying Standardization pierces the veil of misinformation surrounding the push to standardize the curriculum expectations for 56 million public school children. It provides a high energy, passionate, and, well-researched argument of what curriculum should and can be to facilitate the development of unstandardized skills and dispositions necessary for a globally connected society. Defying Standardization dismantles the myths and lies surrounding international test rankings and demonstrates that there is no relationship to economic indicators or skills that drives the innovation economy. The book provides practical examples for how educators, students, and parents can

defy standardization with locally developed, evidence-informed, and globally literate practices to facilitate the development of customized curricula. This book is for those who yearn for a vibrant, innovative, and creative school system in which all students are provided opportunities to pursue their passions and interests in ways that will prepare them to be well-rounded individuals and democratic citizens in a global community.

The Definitive Drucker Elizabeth Haas Edersheim 2007-01-04 Final advice from the great Peter Drucker for driving growth and profitability in the 21st Century—with a new foreword from the author "We need a new theory of management. The assumptions built into business today are not accurate." - Peter Drucker Based on multiple interviews and working sessions with Peter Drucker during the last year of his life, The Definitive Drucker reveals the management luminary's most important concepts and applies them real-life business risks and opportunities. The book sheds light on the most pressing management issues, such as the role of the CEO, why so many leaders fail, and the fragility and interdependencies of our economic and social systems, and it imparts Drucker's views on current business practices, technological, economic, and social changes, and trends—many of which Drucker predicted decades ago. A celebration of this extraordinary man's life and work, The Definitive Drucker offers a unique opportunity to use Drucker's final business lessons to strategize, create, and succeed in any market.

How to Measure Social Media Nichole Kelly 2012-10-10 Your 100% Actionable, Proven Framework for Delivering Rock-Solid Social Media Business Metrics—Painlessly Think social marketing is worth it? Prove it. If your boss hasn't demanded that yet, he will. Then what? Hand him some jive about "return on conversation"? Think that'll fly? You'll be gone so fast you won't know what hit you. You know damn well what your boss cares about: Sales Volume. Costs. Revenue. This book will help you measure all that: credibly, accurately, and in drill-down detail. Bet you can't wait to see his face when you walk in with metrics that stand up to his most brutal questions. We're not just talking about getting "buy-in" or begging for your proverbial "seat at the table." We are talking about numbers that make careers. This book will prove your indispensability to even the most clueless executive in your company. Here's the best part: It's not hard. You won't need to become a math nerd. The tools are cheap (or free), and you're probably sitting on most of the data. This book will give you everything else, including simple step-by-step techniques for creating measurable strategies and getting the data to prove they deliver. You'll also get super helpful hands-on exercise worksheets where you can jot down your answers and notes. Nichole Kelly has been refining this stuff for 14 years. Tu sei la tua storia Francesca Sanzo 2018-03-22 Tu sei la tua storia e ogni storia può essere raccontata. In che modo scrivere può aiutarti a vivere meglio con te stesso e gli altri? Questa guida è un gioco, una riflessione ragionata sulla creatività messa in scena attraverso le parole e per manipolare la memoria e trasformarla in racconto ma è anche un percorso attraverso le diverse declinazioni della scrittura: dall'esercizio personale, al racconto autobiografico a quello delle Organizzazioni, fino a come si narra online; consigli e suggerimenti sono intervallati da interviste e esercizi. Tutti possiamo riflettere sulle parole e usarle per raccontarci. Tutti abbiamo un capitale di creatività - indipendentemente dal talento personale - che possiamo investire in qualcosa che ci piaccia o per metterci in gioco come singoli e nella collettività. La scrittura è uno degli strumenti più semplici da usare: impariamo a mettere in fila lettere e parole da bambini e possiamo farlo come e quando vogliamo. La scrittura è terapia, auto analisi e anche divertimento puro, la scrittura è condivisione e allenamento - più che mai necessario oggi - per mettersi nei panni di qualcun altro. In tempi di totale autoreferenzialità, immersi in selfie e status online ombelicali, c'era davvero bisogno di una guida sulla scrittura autobiografica? Proprio perché oggi chiunque scrive e ha la possibilità di essere autore e editore di ciò che pubblica, è sempre più importante diventare consapevoli di quel che scegliamo di raccontare, come e per chi. Proprio perché chiunque può scrivere, senza la pretesa di diventare uno scrittore, *Tu sei la tua storia* invita a farlo in maniera pratica, divertente e con beneficio per sé e per chi ci legge. *Tu sei la tua storia* ci ricorda che chiunque, se vuole, può scrivere e che in ognuno di noi c'è il potenziale per diventare scrittori del mondo a patto di essere anche ottimi lettori. In questa guida troverai: tanti libri, esempi pratici, giochi per stimolare la tua creatività scrittorica e per manipolare accuratamente la tua autobiografia e alcune considerazioni per usare la scrittura online.

Jack McAfghan Kate McGahan 2015-04-02 An expert communicator, Jack McAfghan writes the memoirs of his four-legged life as a mixed-breed Afghan Hound. From obedience and agility training to hospice work, Jack and his master learn their lessons side by side, inevitably applying what they have learned as their own lives unfold. It is a love story that can be used as an informal study guide for those who are in the process of training a dog, learning to love, or grieving over the loss of a friend. Jack presents with a wise, open and informed mind. He speaks firsthand about the psychological aspects of canine behavior as he opens the reader's mind to the possibilities that exist in life and after death. He reminds us that the way we think can change the course of our lives. This story will touch everyone who has ever loved. It matters not if they have four legs or two. Jack leads us to a higher love as he expands our tolerance and compassion for all of humanity. He extends himself to every creature of the earth, every human on the planet, every spirit in the universe and most of all, to the bona fide Master over all.

Complexity of the Self V. F. Guidano 1987-05-09 In this profound work, Vittorio Guidano expands upon his earlier seminal contributions on the application of cognitive and developmental principles to individuals struggling with various forms of psychopathology. Here, he fully develops the idea that individuals' experience, both positive and negative, are powerfully influenced by their personal psychological organizations. Focusing primarily on the eating disorders, the phobias (with agoraphobia as the prototype) obsessive-compulsive patterns, and depression, Guidano illustrates how early developmental experiences and ongoing psychological processes may collude to perpetuate dysfunctional patterns and personal distress. The central and perhaps most exciting thesis in this new expression of Guidano's thinking is that the "deep structure" or "core organizing processes" that constrain human psychological experience may be at the heart of successful intervention as well as the classical problems of resistance, relapse, and refractory behaviors. Guidano's contention is at once simple and powerful: those psychological processes involved in the development and maintenance of personal identity, or "self" that should be the primary foci of research and intervention in psychological disorders. The meaning of Guidano's perspective for clinical practice is perhaps best expressed in the author's own words: "Knowing the basic elements of the personal cognitive organization that underlie the pattern of disturbed behavior and emotions, the therapist can behave, from the beginning, in such a way as to build a relationship as effective as possible for that particular client. In other words, the therapist should be able to establish a relationship that respects the client's personal identity and systemic coherence and that, at the same time, does not confirm the basic pathogenic assumptions. For example, in working with agoraphobics, the therapist has to respect their self-images centered on the need to be in control. He/she can do this by avoiding any direct attack on their controlling attitudes and by leaving them a wide margin of control in the relationship. At the same time the therapist should avoid confirming their assumptions about the somatic origin of their emotional disturbances or about their inborn fragility. In short, the therapist who can anticipate the models of self and reality tacitly entertained by the client is surely better able to help the development of a cooperative and secure therapeutic relationship than the therapist who cannot make such anticipations. This timely and provocative volume offers exciting new ideas about how to conceptualize and facilitate change in the "self system." With the rare combination of his Renaissance intellect and integrative practical expertise, Guidano has been able to draw together many disparate themes from object relations theory, ego psychology, attachment theory, constructivist models of human cognition, and lifespan developmental psychology. It is must reading for the practicing professional, the helping apprentice, and anyone interested in glimpsing the cutting edge at the growing interface between cognitive and clinical science.

Narrarsi online Francesca Sanzo 2014-12-18 In questo ebook vengono presentati casi reali e un'analisi dettagliata sul perché e come è utile narrarsi online, con un focus su alcuni tra i principali strumenti (blog, Facebook, Twitter) e con alcune proposte operative e tools per pianificare e programmare una strategia di comunicazione digitale per diventare dei "narratori nomadi" in grado di muoversi agilmente su qualunque mezzo. L'ebook si rivolge a tutti quei professionisti che hanno voglia di rimettersi in gioco, che devono iniziare a pianificare la propria strategia di storytelling digitale o che intuiscono le potenzialità dei social media e degli strumenti di narrazione online ma non sanno da dove iniziare. L'obiettivo di questo testo è proporre una serie di riflessioni che possano prescindere dal singolo strumento ma che riguardano prima di tutto la costruzione della nostra storia e le riflessioni necessarie per impostare una buona campagna di comunicazione professionale personale.

The Bedroom Attilio Bertolucci 2012 Poetry. Bilingual Editon. Translated from the Italian by Luigi Bonaffini. THE BEDROOM [La camera da letto] is Bertolucci's best-known work, so popular that the poet once read it to television viewers on a seven-hour program. It is a narrative poem that traces the history of the poet's family across seven generations with directness, precision and attention to everyday details, major events and fantastic surprises. Paolo Lagazzi writes in his introduction: "THE BEDROOM is a sort of a multi-novel, or a distillation of very diverse narrative forms and intuitions: a Bildungsroman and fairytale, an epoch novel, a novel-chronicle, a dramatic novel and a picaresque novel. An experimental work in the most authentic sense of the word..." "Nothing of time's essence escapes or is neglected by the author's ravenous sensibility, no less active in recording the multiple places in which existence rests (the city and the countryside, the sea and the plane, the Po river and the Maremma) in an exuberant display of forms, lights, perspectives, tonalities."-Luigi Ferrara
