Outsiders Markus Bell 2021-10-15 In this unique and insightful book, Markus Bell explores the hidden histories of the men, women, and children who traveled from Japan to the world's most secretive state—North Korea. Through vivid ethnographic details and interviews with North Korean escapees, Outsiders: Memories of Migration to and from North Korea reveals the driving forces that propelled thousands of ordinary people

to risk it all in Kim Il-Sung's "Worker's Paradise", only to escape back to Japan half a century later.

The New Feminist Movement Marion Lockwood Carden 1974-02-01 The feminist movement has become an established force on the American political and social scene. Both the small consciousness-raising group and the large, formal organization command the attention of our legislative bodies, media, and general public. Maren Lockwood Carden's new book is the first to look beyond feminist ideas and rhetoric to give a detailed study of the movement—its structure, membership, and history of the organizations that form a major part of present-day feminism. Fair, objective, and comprehensive, her study is based on participant observation and in-depth interviews with rank and file members and local and national leaders in seven representative cities during 1969-1971. In Dr. Carden's analysis, the movement has two divisions. First, the hundreds of small, informal "Women's Liberation" consciousness-raising and action groups. Second, the large, formally structured "Women's Rights" organizations like the National Organization for Women (NOW) and the Women's Equity Action League. For both types of organizations, Dr. Carden covers members' reasons for participation; organizational structure; strategies and actions; and the relationship between ideology and structure, including the attempts by many groups to work as "participatory democracies." She also discusses the development of the movement from the mid-sixties to the present, and evaluates the long-term prospects for achieving the objectives of the various new feminist groups. Anyone interested in organizations, personality and society, and social change will welcome this detailed description and history of a complex and rapidly changing social movement. Highly readable and free of technical jargon, *The New Feminist Movement* tells us what's been happening to women in the last decade, what they want now, and where they may be headed in the future.

New Approaches to Economic and Social Analyses of Discrimination Richard R. Cornwall 1991 This volume examines the concept and social phenomenon of discrimination from economic and sociological perspectives. It brings together the work of a wide range of sociologists and economists and provides a spectrum of methodological and ideological views on this highly charged topic. The breadth of topics and approaches offered here include classical Marxist ideas on rivalry among entrepreneurs and among ethnic groups to neo-classical supply-side and human capital factors, as well as demand-side factors such as efficiency wage theories and organizational inertia. This work will be of interest to specialists in labor economics and sociology. It provides an excellent overview of the relevant issues and current scholarly thought in employment and occupational discrimination.

UFO Phenomena and Perpetual Motion Machines Richard Zele 2015-10-20 Mankind is constantly facing different challenges in our dynamically changing world. What we pretty much need is cooperation and alliance to overcome the problems we have to face. Our conflicts of interest and ideological opposition have to be put aside. Without a wide-scale social alliance we will not be able to find the answers to the questions that have properly arisen because of our irresponsible behavior. In the Middle Ages natural resources were so abundantly available that mankind's needs were pretty easily met. We had to do nothing else than to cut out of nature everything we happened to need in a specific moment of time. Mankind snatched the opportunity but did not really chew the cud. They took away what they wanted. Nevertheless, with the onset of the industrial revolution, the rules of the game started to change. The energy output of the machines reached higher and higher levels, but at the same time, the rate of charge they exerted on the environment had also uninterruptedly increased. We opted for an "elegant" solution. We just simply hushed up the problem. For a long time, the protection of the environment had been a disregarded marginal field ignored completely by the political powers. Nevertheless, the environmental catastrophes warned us to take action in a very short while, but the fire extinguishing might have started too late; hence the operation of some of the energy-supplying systems produced an immense economic benefit for several lobby groups. Petrol, natural gas, and other common yet

not really efficient sources of energy, which at the same time have had a deleterious influence on the environment, are constantly dwindling away. Fuel prices reach the stars. If we see a temporary price decrease, we take a deep breath. Nonetheless, this is nothing other than the end game. Remarkable changes are to come. If this does not happen or is delayed, a global catastrophe is expected to come. When might this downturn happen? What other sources can replace the petrol? For the moment, no one can answer these questions. Could anyone? According to some thinking the progress of history is not linear but cyclic. Many of the ideas had been born many centuries or even many millenniums ago in the heads of certain persons. Some of them put their ideas even on paper, or others might have built them. Who were they? If someone comes up with an idea that differs pretty much from the ordinary ones of his era, he cannot really be optimistic about a warm welcome. He is looked at as a weirdo at most. In the worst case he is burnt at the stake because of not having accepted the traditions. It is actually not worth going too far. In the past, the ones who were asking too many questions had to face the ecclesiastical or secular powers, whereas today these are replaced by the petroleum lobby. However, the end result is the same, unfortunately: a rented parcel in a quiet graveyard. Documents and experimental utensils are disappearing or are destroyed practically as a routine. Certain academic circles are declaring that "the idea is pure fantasy; this cannot be true because it contradicts the laws of nature!" Of course, they forget to mention what they exactly mean about "laws of nature" since "nature" or "universe" are boundless notions the full comprehension and mapping of which is impossible. Making use of our rules and laws we manage to get access to those parts about which we confidently state that we have managed to understand. Can we, however, talk about real comprehension? All our rules are based on semblances and simplifications. We want to humanize something that is totally independent of us. We overestimate our role. We abuse nature instead of serving it. Some recognized this problem in Hungary and abroad as well.

Fighting the Dragon Sandra Kischuk 2012-11-01 For decades, traditional medicine had very little to offer for individuals suffering from multiple sclerosis and other autoimmune diseases. Today, medical science has brought us wave upon wave of immunomodulatory medications to try to slow disease progression. Unfortunately, these medications come with their own health- and life-threatening side effects. And sometimes, they just stop working. "Fighting the Dragon: How I Beat Multiple Sclerosis" is the story of one woman's thirty year battle with multiple sclerosis and what she did to reclaim her life when she realized she would need an assisted living facility within a few years. The book contains detailed descriptions of what worked and what did not, where she got the help she needed (and how the reader can locate these resources within his/her own community), and the logic behind the non-conventional therapies. "Fighting the Dragon" is a narrative of courage—courage driven by desperation, a story written by a patient who decided, when her neurologist told her, "You will never walk normally again," that she would dance. "Fighting the Dragon" is also a book the MS patient can take to his/her physician . . . it contains well-researched, easy-to-follow guidelines for what to do and how. The information is also applicable to a wide range of other autoimmune conditions, cancers, and AIDS. * * * * * Excerpt: . . . if your car kept breaking down and the mechanic you took it to kept doing the same thing to fix it—but it did not stay fixed, you would question the mechanic's competence. Maybe the mechanic pulled out a technical manual. "See. I fixed it exactly as the manual said. This is the industry-approved way to solve this problem." When the car broke down again a week later, would you be satisfied? Probably not. You might decide it is time to replace the car. But that might be too expensive. So, what to do? If you were smart, you would probably try to find a new mechanic. You might ask your friends who they would recommend. You might search on the Internet to see if other people had the same experience with their cars . . . and what caused the problem. You might telephone some repair shops to get some idea of what they thought the problem might be. If you found a new mechanic and that mechanic looked over the car and said, "I have a solution that is

not in any industry-approved repair manuals, but it is safe and it works,”—would you walk away and go back to the first mechanic who never got it right? Why is your health worth any less than your car?

The Big House in a Small Town Eric J. Williams 2011 This work is an in-depth, on-the-ground examination of how prisons impact rural communities, including a revealing study of two rural communities that have chosen prisons as an economic development strategy. * Provides compelling data from over 200 formal and informal interviews of local politicians, residents, and prison officials, including the former directors of Texas's prison system * Utilizes a combination of two qualitative methods to conduct the research

The Outsiders - Literature Kit Gr. 9-12 Sarah Joubert 2013-08-28 Delve deep into a world of socioeconomic differences and the tragic outcome of this conflict. A variety of activities keep students on their toes and practicing reading skills. Explore the themes of prejudice and social conventions and the part they play in a community. Explain Johnny's transformation through the eyes of Ponyboy. Answer multiple choice questions about Johnny and Ponyboy's time in the church. Match difficult vocabulary words to their meanings. Imagine interviewing Ponyboy about his actions while saving the trapped kids in the burning church. Explain how Cherry describes the duality of Bob. Imagine an alternate version of the story from the point of view of the Socs in which it was one of the Greasers who were killed in the fight. Aligned to your State Standards and written to Bloom's Taxonomy, additional crossword, word search, comprehension quiz and answer key are also included. About the Novel: The Outsiders is the classic coming-of-age story about two social groups in 1960s Oklahoma. The Greasers and the Socs are rival social groups, who engage in petty fights around town. Ponyboy and his friends are Greasers and get jumped by the Socs regularly. One night, after leaving a local drive-in, Ponyboy and his friend Johnny get jumped from a group of Socs who have a score to settle. Things go too far and one of the Socs gets killed. Ponyboy and Johnny now find themselves running from the police. After a week hiding out, the pair decide to return and face the consequences of their actions. Things go from bad to worse as the story faces its climax with a final rumble between the Greasers and the Socs.

Things to Come Tom Newman 2017-05-27 Initially it was not my intention to write a book, I was just looking for answers. Answers to questions I had after my involvement as an infantry paratrooper with the 101st Airborne during the Vietnam War. And my life after death experience after I was stung by Giant Black Wasps went into anaphylactic shock and flat lined. I suffered a cardiac arrest and complete respiratory failure. I was later able to relate procedures the medical staff used to resuscitate me while I was dead. I don't have to wonder about life after death, I know. Things To Come will give the reader a thorough understanding of what the Bible says and what Christianity means for a believer. The book is divided into six sections; The Covenants, covers God's Covenants, His chosen people and God's will for mankind. The Holy Spirit, whom the Father sent to us after Christ's ascension, details the twelve current ministries of the Holy Spirit in our lives. The Prince of Darkness explains Satan's role in everyday life. Satan is not omnipresent so he cannot possibly involve himself in the daily affairs of eight billion people. God's Providential involvement in everyday life is revealed in the 4th chapter. The Tribulation and the Rapture addresses the final eventual battle between good and evil; Christianity and Islam. The final chapter The Alpha and the Omega specifies the personal relationship a believer has with Christ. Things To Come is a very good book for anyone that desires a deep understanding of Scripture and either does not have the time for daily reading of Scripture or finds the Bible hard to understand. A word about PTS (PTSD), there is no D, PTS is not a disorder. PTS is natural reaction of stress experienced after a person is exposed to a traumatic event. Many people suffer from PTS, it can be the result of a rape, an assault, the loss of a spouse, a child, a sibling, witnessing a horrific event or an accident. What makes PTS different for soldiers is that they are subject to frequent traumatic events over a long period of time. People respond differently to traumatic events, some are more resilient

than others. Frequency, duration, and the extreme nature of the event all play a role in recovery. A major component of PTS is the moral dissonance we experience. The event can completely destroy our belief system, the ideas we held that made sense of the world we live in. At any point in time we are a summation of what we know and the experiences we have gone through. Events and information change how we see the world and in effect change who we are. A traumatic event can be so life changing that we are in effect a different person and after a traumatic event, the new you. In order to recover from PTS, it is imperative we reconstruct a new belief system that encompasses our new reality and the new you. In *Just War, I* (Tom Newman) recount the events that destroyed my worldview and fundamentally changed the person I was. The Company I was with in Vietnam experienced a 97 percent casualties and fatalities. Within my first 30 days in country we had a friendly fire incident that killed eleven and severely wounded nineteen of my fellow troopers. I also witnessed the aftermath of the regular assassination of four year old children. Additionally, when we retook the city of Hue we found the shallow graves of 2,800; judges, doctors, clergy, policeman, and politicians, anyone that could organize a resistance against the communists. It was a very long process for me to make sense of my new realities and the new me. My other book; *A Brief History of the Bible' Things To Come*, is the information I needed to reconstruct a new worldview bases on my experiences and the new person I had become. If you want to get your life back after suffering from PTS, it is imperative you find a new worldview for the new you.

Building a New Community Psychology of Mental Health Carl Walker 2017-03-31 This book provides a much-needed account of informal community-based approaches to working with mental distress. It starts from the premise that contemporary mainstream psychiatry and psychology struggle to capture how distress results from complex embodied arrays of social experiences that are embedded within specific historical, cultural, political and economic settings. The authors challenge mainstream understandings of mental health that position a naive public in need of mental health literacy. Instead it is clear that a considerable amount of invaluable mental distress work is undertaken in spaces in our communities that are not understood as mental health treatments. This book represents one of the first attempts to position these kinds of spaces at the center of how we understand and address problems of mental distress and suffering. The chapters draw on case studies from the UK and abroad to point toward an exciting new paradigm based on informal community and socially oriented approaches to mental health. Written in an unusually accessible and engaging style, this book will appeal to social science students, academics, practitioners and policy makers interested in community and social approaches to mental health.

Exploring Communities of Practice in Further and Adult Education Jonathan Tummons 2022-11-07 Drawing on international research and professional practice, this book provides a rich, detailed, and accessible guide to Communities of Practice (CoP) theory, with information on how the theory is constructed, the research that it rests on, and the ways that it has been used in thinking about learning and teaching in the further and adult education sectors. Exploring Communities of Practice in Further and Adult Education introduces CoP theory and the theory of learning that goes with it. It provides empirical examples of CoP research from a range of settings, including further and adult education, to illustrate how CoPs form and work within educational settings, including thinking about assessment and evaluation. It also explores how different CoPs work together and can learn from each other. With these key elements described, this book demonstrates how CoPs can be used in further and adult education settings to help understand more about how students and staff learn. With engaging material including examples from research, prompts for professional learning, and case studies, this comprehensive and accessible title will appeal to student teachers and beginning teachers as well as more experienced teachers in the sector looking to refresh their practice.

Happy As a Rat in a Trash Can Don Pasco 2013-05-03 On a scale of 1 to 10, with 1 being not happy at all and 10 being very, very happy, how happy would you say you are right now, BEFORE reading this book? Now remember that number. Inside "Happy As a Rat In a Trash Can" Don challenges the reader to raise that number just as a student would be challenged to raise up school grades. Don says this book is about YOU! It is about you becoming a little more faithful a little more grateful a little more understanding a little

more forgiving a little more thoughtful a little more caring and a lot more loving Why? Because these are the things that beget happiness. In early 2008 Don's Mom went to be with the Lord. She was a person just like your Mom... very loving and invariably, always in your corner. Her Christian values were instilled in him and are presented to the readers throughout this book. Don presents his points with a sense of humor (as reflected in the title) but never does he joke about the seriousness of becoming a happier person. He'll explain why faith is necessary and how the Law of sowing and reaping is creating the world YOU live in. He'll give you a simple question to ask yourself whenever confronted with the tough choices that life brings to all of us. This book's objective is to raise your level of happiness even if you are already a happy person. Don't be surprised if those around you start to wonder what got into you! This book can be your little secret happiness project. You'll learn how and why we all need to pay more attention to others and why that will result in a better future for yourself. (see Chapter 5 - Lessons from "Groundhog Day") Being Happy is the Result of Sowing Good Seeds. If you're NOT happy, you need to read this book. Here are some great ideas that you can begin to implement immediately. Buy this book NOW! ~ You'll be Glad "HAPPY" You Did!

What others are saying about this book: "It takes us a lifetime to learn the lessons in this book. The author seems to have mastered them, and we would do well to learn from him. Buy this book." Helen C. Page (San Francisco) *** "Don't let the somewhat comic tone of the title and the cover make you think that this book isn't written in all seriousness. ...it provides what can only be called wisdom ...one of this year's must-read books." Fatty Legs Christy Jordan-Fenton 2010-09-01 Eight-year-old Margaret Pokiak has set her sights on learning to read, even though it means leaving her village in the high Arctic. Faced with unceasing pressure, her father finally agrees to let her make the five-day journey to attend school, but he warns Margaret of the terrors of residential schools. At school Margaret soon encounters the Raven, a black-cloaked nun with a hooked nose and bony fingers that resemble claws. She immediately dislikes the strong-willed young Margaret. Intending to humiliate her, the heartless Raven gives gray stockings to all the girls — all except Margaret, who gets red ones. In an instant Margaret is the laughingstock of the entire school. In the face of such cruelty, Margaret refuses to be intimidated and bravely gets rid of the stockings. Although a sympathetic nun stands up for Margaret, in the end it is this brave young girl who gives the Raven a lesson in the power of human dignity. Complemented by archival photos from Margaret Pokiak-Fenton's collection and striking artworks from Liz Amini-Holmes, this inspiring first-person account of a plucky girl's determination to confront her tormentor will linger with young readers.

The Ambassador of God Olumide Sanya MR 2014-02-01 The Ambassador of God provides exhaustive and in-depth answers to very difficult questions about our cosmic origin and the planet earth. Almost everything to do with the Sun, Moon, Stars, Water, Mars, Jupiter, Aliens... and most importantly - God About the book and author

_____ God is real. And for the first time, experimental and observable science reveals his existence. Throughout history, many have argued the existence of God, yet discussions of the Divine have been limited to the realm of philosophy and religion. But what if nature could reveal its creator? And what if science could provide compelling evidences that we have never seen before? What if the identity of the

creator behind the origin of our universe can be known for certain? What if... This is what *The Ambassador of God*, a ground breaking look at our cosmic origin, has provided. In this probing book, difficult questions are answered. As renowned scientists and thinkers challenge the biblical narratives for our cosmic origin, *The Ambassador of God* uncovers the mysteries that have been hidden from human eyes. Using compelling evidences from astronomy to investigate the underpinnings of the Bible, *The Ambassador of God* provides a 'cosmic objective certainty' for the existence of a universal Creator. Additionally, it unveils a well of exhaustive insights that eliminates ambiguities in our understanding. How is it possible that God is one and three distinct persons, but not three Gods? Why is the earth and the human body mostly water? Who created the sun, moon and stars? What about aliens and the other solar planets? What is the mystery and purpose behind human existence and other life forms on our planet earth? Why are we here and how did we first arrive on this planet? How do we come to understand divinity in the current scheme of scientific reasoning? How do we make peace with the grand designer behind it all? Readers seeking answers to these questions (and other similar questions) will find them here. They will not find dogma. Instead, they will embark on a journey-an experimental voyage through the lens of science that reveals the mind of God. In a "show" rather than "tell" fashion and a template that's more coherent than any prevailing secular science view, we shall find who God is! Who is the Author? Olumide Sanya is a contemporary poet and writer. Beside poetry and writing, Lumi, as he is affectionately known, helps others to achieve their dreams as a life coach. Unusually drawn to books between the ages of 4 - 9, Lumi neither enjoyed reading nor read books but spent his childhood years looking for abandoned tomes that he turned into a formidable collection. Despite being a non-reader, he realised the dream of becoming a writer in his tender years and for more than 12 years, he abandoned this dream. ...Until one day, God paid him a visit. But it didn't start there, it began with falling in love and writing poems about love and heartbreaks but that's another story for another year. "God has a sense of humor," says Lumi. "It's not hard to see that if you know my story-where I've been, where I'm at, and what God has planned for my tomorrow. What is most important to recognize is what God can do with a 'nobody' like me." *The Ambassador of God*, he notes, is not just about answers to large existential questions "It is also a road map that offers optimism and guidance in today's confused and increasingly complex modern world." You don't have to be a physics professor or a philosopher to understand Sanya's work. *The Ambassador of God* aims to open discussion and understanding at the broadest possible level. It is written for everyday people.

Creative Thinking and Brainstorming J. Geoffrey Rawlinson 2017-09-29 Brainstorming is probably the best known of all the techniques available for creative problem solving. This book, by one of the world's foremost exponents of brainstorming, begins by identifying the barriers to creative thinking and showing how they can be removed. It goes on to set out systematic procedures for organizing effective brainstorming sessions, for evaluating the ideas produced, and for introducing the brainstorming approach into an organization. This is a highly practical book, illustrated throughout by examples drawn from the author's experience with nearly eight hundred groups of managers in four continents.

Valuing People in Construction Fidelis Emuze 2017-08-09 *Valuing People in Construction* provides contemporary perspectives on the 'glue' that binds the construction process together; people. The book addresses people issues in the construction industry where behavioural outcomes impact upon business and project performance. The main proposition of the book is that as people continue to lead the completion of construction activities, their health, safety, and well-being should be seen as a priority, and valued by stakeholders. As employers and employees, the role of people in construction must be to strive for the improvement of individual lives and society. This edited collection, which is the first book to focus specifically on placing value on people in construction, focuses on people at work, gender at work, conditions at work, and respect at work. In

addition to an editorial overview, the book presents tested and refined empirical work and case studies by leading construction researchers from Africa, Australia, and Europe. Essential reading for researchers, students and professionals interested in construction management, the sociology of construction, HRM in construction, gender, work and health studies.

Things Fall Apart Chinua Achebe 2013-04-25 Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease.

A grammar of Mauwake Liisa Berghäll 2015-10-07 This grammar provides a synchronic grammatical description of Mauwake, a Papuan Trans-New Guinea (TNG) language of about 2000 speakers on the north coast of the Madang Province in Papua New Guinea. It is the first book-length treatment of the Mauwake language and the only published grammar of the Kumil subgroup to date. Relying on other existing published and unpublished grammars, the author shows how the language is similar to, or different from, related TNG languages especially in the Madang province. The grammar gives a brief introduction to the Mauwake people, their environment and their culture. Although the book mainly covers morphology and syntax, it also includes a short treatment of the phonological system and the orthography. The description of the grammatical units proceeds from the words/morphology to the phrases, clauses, sentence types and clause combinations. The chapter on functional domains is the only one where the organization is based on meaning/function rather than structure. The longest chapter in the book is on morphology, with verbs taking the central stage. The final chapter deals with the pragmatic functions theme, topic and focus. 13 texts by native speakers, mostly recorded and transcribed but some originally written, are included in the Appendix with morpheme-by-morpheme glosses and a free translation. The theoretical approach used

is that of Basic Linguistic Theory. Language typologists and professional Papuanist linguists are naturally one target audience for the grammar. But also two other possible, and important, audiences influenced especially the style the writing: well educated Mauwake speakers interested in their language, and those other Papua New Guineans who have some basic training in linguistics and are keen to explore their own languages.

Reforming Urban Transport in India M Ramachandran 2017-07-07 Reforming Urban Transport in India is an attempt to take stock of the various issues our cities and towns are facing in the area of urban transport, efforts made and being made both at the policy level as well as the field level to address the problems, the ever increasing complexities of challenges in the area of urban mobility and some of the laudable initiatives on the ground to handle the problems. This book would be a valuable addition to the limited literature available on the subject of urban transport in India. The topic has not attained much prominence even in the broader discussions on the transport sector issues in the country. The fact that we address our urban transport issues in a casual manner but there is need to take them up in a focused and purposeful manner and this can no longer be delayed is probably the one loud message which is emerging out of this volume. The wealth of knowledge of the contributors, each one of them having huge experience behind them in this sector, makes the book a valuable addition to the literature and a helpful guide in policy discussions.

What Is Love? My Question... God's Answer Jennifer E. Michaels 2012-04 A true story that sheds light on the dark mysteries surrounding the cultic organization of Jehovah's Witnesses. Jennifer E. Michaels's memoir details her experience of being excommunicated at the unprecedented age of thirteen. Brainwashed to believe she was dead to her family, the church and God, Jennifer reveals the excruciating spiritual abuse that follows. Told with an uncanny lack of self-pity, she takes the reader on a harrowing ride of pain and addiction. Those traumatic events, however, are not what define her. Perhaps the most incredible part is not the tragedy, but rather Jennifer's ability to overcome it. Her powerful determination to find the truth about God leads the reader on an incredible spiritual journey most people could only dream of. You will be awe-inspired by Jennifer's willingness to share her intimate conversations with God and astounded by the way God shows up. Triumphant healing takes place as God profoundly answers her most sought-after question: What is Love?

Python Passive Network Mapping Chet Hosmer 2015-06-10 Python Passive Network Mapping: P2NMAP is the first book to reveal a revolutionary and open source method for exposing nefarious network activity. The "Heartbleed" vulnerability has revealed significant weaknesses within enterprise environments related to the lack of a definitive mapping of network assets. In Python Passive Network Mapping, Chet Hosmer shows you how to effectively and definitively passively map networks. Active or probing methods to network mapping have traditionally been used, but they have many drawbacks - they can disrupt operations, crash systems, and - most importantly - miss critical nefarious activity. You require an accurate picture of the environments you protect and operate in order to rapidly investigate, mitigate, and then recover from these new attack vectors. This book gives you a deep understanding of new innovations to passive network mapping, while delivering open source Python-based tools that can

be put into practice immediately. Python Passive Network Mapping is for practitioners, forensic investigators, IT teams, and individuals who work together when performing incident response and investigating potential damage, or are examining the impacts of new malware threats. Those defending critical infrastructures will have a special interest in this book, as active or probing methods of network mapping are rarely used within these environments as any resulting impacts can be disastrous. Python Passive Network Mapping is ideally suited for use as a text in a variety of academic programs to expose and engage students in the art of passively mapping enterprise networks, with the added benefit of providing exposure to open source Python solutions. First book to show you how to use open source Python to conduct passive network mapping Provides a new method for conducting incident response and investigating the extent of potential damage to your systems Python code forensics toolkit for network mapping included on the companion website

Heaven Can't Wait Kathy Godfrey 2013-12 Author's Note About four years ago, I walked out of my life. Leaving professional middle class behind me, I set out in search of something more than acquiring and performing. I was so tired of being disappointed every time I arrived at a goal and found nothing there. I couldn't name it, but I suspected there was more to understand about this life. Receiving that understanding became my priority. Whether I was hiking or writing, dancing or crying, all I wanted was to know the more. My way of being changed immediately and gradually as I learned to let go of old stories and step into new freedom. I know now that Love, as a principle, is what I and you have been looking for. It is the beauty, freedom, and wellbeing that we imagine "heaven" to be. And the truth is we don't need to wait. We can live in Love and all its Joy right now. We don't have to die to live in heaven. Proof of Heaven by Eben Alexander has been on the New York Times bestseller list for fifty-nine weeks. Browsing in Barnes and Noble days after I finished this manuscript, I picked up Alexander's book. I was interested solely because he is a neurosurgeon, not the kind of guy typically writing about heaven. Skimming, I noticed that his near death experience was strikingly similar to my own nonphysical experiences. So I read the whole the whole book in an afternoon. My first impression was true. Alexander and I have indeed received nearly identical revelations: Love is all there is. Fear isn't real. We can't fuck it up. Separation isn't possible. Every question is the answer. We both feel that we must share these universal principles as best we can to everyone who can hear them. We both learned to move into "heaven" by focusing on the feeling of it. We both know that everyone has the ability to do the same, and we can do it now. What if you are not who you think you are? I also share Alexander's challenge of putting nonphysical experiences into words after they have come through the filter of my physical body. It's like describing Einstein this way: He was a man. Can you imagine how much you would miss if that's all you knew of him? That's how it feels to offer you words about the experience of god. I offer them only because they might interest you enough to have your own experience. Well, that and because I really cannot imagine being able to keep this Joy all to myself. What if you have suffered enough? That is what I have been asking myself for the last few years, and now, I am asking you. Even if we are the worst people on the planet (whatever that means), we have more than paid our debt. We have spent enough days in fear and shame to punish our worst mistakes. If you don't believe that, at least ask yourself how continuing to punish yourself benefits anyone. Withholding joy and peace from your own life perpetuates misery in every life. What if you are so much more? I am writing to you to say that I have spent the last ten years in deliberate pursuit of the answer to this question. What I learned changed everything for me. What Alexander learned changed everything for him. It can change everything for you too. My message is not meant to challenge or replace a life that is working for you. What I am suggesting is a way of living that fulfills and delights moment by moment. If you aren't enjoying your life as much as surviving it, I suggest a change. What do you have to lose? You don't have to spend seven days in a coma to have the experience of Alexander. That is his message, and it is mine. He died. I sat. We learned the same good news: There are no

prerequisites. You don't have to be a certain kind of person. No history or flaw can disqualify you. There are no rules, no competition, and nothing to achieve. As I illustrate with my own life experience, there is only Love, and we can choose to enjoy it at anytime.

Reset Michael Jones 2016-03-10 Hopelessly in a funk with no apparent way out, mortgage industry veteran, Mark Stiles, grasped desperately to the only thing that could help: CHANGE. For the past few years, Mark has been stuck in a life of mediocrity - unfulfilled and simply getting by..... Slowly, but surely, both his personal and professional lives have derailed and are on a one-way track to disaster. Now, after a chance encounter with an old friend and colleague in the business, Mark is presented with a challenging opportunity that can radically change his life. A change that could not only allow him to achieve his dreams and provide an abundant life for his family, but a change that could inject long-forgotten purpose, meaning and fulfillment back into his career and very soul. Whether you're a mortgage veteran or a newbie to the residential mortgage scene, this book is possibly the answer to your problems! It not only provides solutions to the issues you've faced with loan files, but it outlines a proven, strategic framework for re-structuring your life to reach all the goals you've set for yourself and achieve unlimited success. The only question is: are you prepared to hit the Reset button and change?

The Christian World Around the New Testament Richard Bauckham 2017-10-20 Most of these thirty-one essays by Richard Bauckham, a well-known New Testament scholar, were first published between 1979 and 2015 in journals and multi-authored volumes. Two are previously unpublished and one has not been published in English before. They range widely over early Christianity and early Christian literature in both the New Testament period and the early patristic period, reflecting the author's conviction that the historical study of early Christianity should not isolate the New Testament literature from other early Christian sources, such as the apostolic fathers and the Christian apocryphal literature. Some of the essays develop further the themes of the author's books on aspects of the Gospels, such as the intended audiences of the Gospels, the way in which Gospel traditions were transmitted, the role of the eyewitnesses in the origins of the Gospels, the importance of Papias's evidence about Gospel traditions, and the relationship between canonical and Gnostic Gospels. Some of the essays relate to important persons, such as Peter, Barnabas, Paul and James. These include a full investigation of the evidence for the martyrdom of Peter and an attempt to locate the estate of Publius where Paul stayed on Malta. There are studies of the Sabbath and the Lord's Day in both the New Testament and patristic periods. There are studies that survey most of the main categories of apocryphal Christian literature, including apocryphal Gospels and Acts, and with a special focus on the non-canonical apocalypses, such as the Apocalypse of Peter and the Latin Vision of Ezra.

Board Member Orientation Michael E. Batts 2011-02-01 Finally! Board member orientation truly simplified. Serving on a nonprofit board can be an incredibly rewarding experience for the properly prepared board member. This book is for the generous and busy people who agree to give of their time and talents by serving on nonprofit boards. Nonprofit boards often fail to do a good job of board member orientation for a variety of reasons. It takes a significant amount of time and effort to plan and conduct quality board member orientation programs, and every time a new board member arrives, it's time to do it again! Because of the challenges associated with providing quality board member orientation, many nonprofit organizations do not do it at all, leaving their board members to wing it. This book provides help and support to the truly great men and women serving on nonprofit boards whose service makes a positive difference in the lives of countless people every day. This book is a concise and appropriately comprehensive guide to nonprofit board service designed especially for new board members. It is a quick read, (about one hour), yet it addresses with accuracy the most significant elements of board service, such as mission, responsibility, duty, risk, liability, and board meeting dynamics. Hooy Alerts! Watch for Hooy Alerts! where the

author identifies and dispels common myths and legends about nonprofit board service. There are many sources of false or misleading information about the nonprofit board service environment. A perfect example is the often vaguely-worded and intimidating assertion or implication that the Sarbanes-Oxley Act passed by Congress in 2002 applies to nonprofit organizations in a manner similar to how it applies to publicly-traded companies. (It does not.) Reviews "This book is the perfect guide for every nonprofit board member! Concise, highly informative, and loaded with nuggets of wisdom, it's a must read that will take board members to the next level of successful board governance." -- J. Todd Chasteen, General Counsel, Samaritan's Purse "Mike Batts has put his quarter century of advising and serving on nonprofit boards to good use in this accurate and easy-to-read book. In addition to describing major principles of nonprofit law and governance, the book provides helpful questions to guide board members in understanding the practical applications of the concepts discussed. While geared primarily toward helping new board members get up to speed quickly, it should also help veteran board members discharge their stewardship roles wisely and efficiently." -- Chuck Hartman, Associate Professor of Business Law and Accounting, Cedarville University "This book, Board Member Orientation, is exactly what a busy volunteer board member needs. The board member's duties are presented in a clear and concise manner from the perspective of someone who has been around many boards. With a focus on those issues that are most common and/or most important, it is perfect for board member orientation and for quick reference reminders for the experienced board member." -- Doug Starcher, Partner, Broad & Cassel "This book provides clear, no-nonsense guidance on the basic issues for new nonprofit board members. Using this book for board member orientation will ensure your organization has communicated fundamental governance issues and will assist the board in determining risk management strategies." -- Dan Busby, President, ECFA *****
The Simple Board Member Orientation Process Using This Book: 1.Your board members read Chapters 1-9 of the book, which will provide them with insights regarding the key elements of nonprofit board service. 2.You provide the board members with copies of the documents described in Chapter 10 related to your organization. 3.You meet with your board members to discuss the unique attributes of your organization following the discussion questions provided in Chapter 10. Done!
