Betrayed Elaine Eisenman 2019-07-02 Betrayal comes in many forms. In the corporate world, there are big lies, white lies, and lies of omission. What is it that causes us such deep reaction to betrayal? Why do we relive it with such passion and intensity? Why does even the memory of a betrayal spark such feelings of shame, anger, and resentment? In Betrayed, Dr. Elaine Eisenman and Susan Stautberg dive into over fifty true stories of betrayal to learn how to successfully handle the trauma in setbacks, overcome the urge for quick revenge, consider the possibilities of forgiveness, and most importantly, to set a positive path into the future.

Regulating Paradise David L. Callies 2010-07-06 Land use in Hawai'i remains the most regulated of all the fifty states. According to many sources, the process of going from raw land to the completion of a project may well average ten years given that ninety-five percent of raw land is initially classified by the State Land Use Commission as either conservation or agriculture. How did this happen and to what end? Will it continue? What laws and regulations control the use of land? Is the use of land in Hawai'i a right or a privilege? These questions and others are addressed in this long-overdue second edition of Regulating Paradise, a comprehensive and accessible text that will guide readers through the many layers of laws, plans, and regulations that often determine how land is used in Hawai'i. It provides the tools to analyze an enormously complex process, one that frustrates public and private sectors alike, and will serve as an essential reference for students, planners, regulators, lawyers, land use professionals, environmental and cultural organizations, and others involved with land use and planning.

Philadelphia and Its Manufactures Edwin Troxell Freedley 1859

At the Heart of Katmai Katherine Johnson Ringsmuth 2013

Distant Corner Jeffrey Karl Ochsner 2003 It closes with the sudden collapse of Seattle's economy in the Panic of 1893 and the ensuing depression that halted the city's building boom, saw the closing of a number of architects' offices, and forever ended the dominance of Romanesque Revival in American architecture."

Public Art in Philadelphia Penny Balkin Bach 1992 "Public art is a manifestation of how we see the world—the artist's reflection of our social, cultural, and physical environment." Thus, Penny Bach introduces this fascinating history of public art in Philadelphia, narrated throughout with surprising anecdotes, biographical sketches, and more than 450 illustrations. She explores the artistic, historical, political, and social trends and events that caused the city to acquire such a rich and diverse collection of public art. Philadelphia's tradition of public art reveals the origins of our cyclic longing for public expression: the spiritual roots of Native American culture, the utilitarian needs of the colonial period, the civic glorification of American patriotism, the planning instincts that emerged from the industrial era, and the pursuit of originality and invention in the twentieth century. Guiding the reader through a chronological tour of the city's aesthetic holdings, Public Art in Philadelphia provides a sort of history of American monumental art in microcosm and offers a way to appreciate the public art we encounter, whether it is cast, carved, built, assembled, or painted. As the nation's first capital, Philadelphia began early to commemorate heroic figures, popular leaders, patriotic ideals, and historic events. From Lazzarini's marble figure of Benjamin Franklin to Pinto's Fingerspan in Fairmount Park, from Laurel Hill Cemetery's celebrated sculpture garden to Lipchitz's controversial Government of the People, and from William Penn atop City Hall to the colorful murals by the Anti-Graffiti Network, public art has continued to enhance, define, and challenge Philadelphians' perception of their city. With perhaps the largest collection of

public sculpture in the world, Philadelphia's art acquisitions span the history of the United States. Bach examines the gradual transformation over three centuries of style, theme, and reception of statues, murals, and other art forms. Shorter thematic essays make "connections" between works, ideas, artists, and civic missions. A catalogue focuses on more than 200 individual works, noting the materials, dimensions, location history, and commissioning process, and suggesting the vast range of public art. The armchair tourist, for example, can visit Dickens and Little Nell in Clark Park, the John Wanamaker's Eagle, the All Wars Memorial to Colored Soldiers and Sailors in Fairmount Park, or the Julius Erving Memorial on Ridge Avenue, among many others. A set of maps encourage readers to view the works in their public context. Public Art in Philadelphia offers a unique tour of both the familiar and the overlooked treasures that give meaning to the public environment, that reconnect art to daily life, and that remind Philadelphia's visitors and residents of what was considered important to previous generations. Author note: Penny Balkin Bach is Executive Director of the Fairmount Park Art Association, the nation's first non-profit organization dedicated to the integration of art and urban planning. She is also the author of Form and Function: Proposals for Public Art for Philadelphia.

Culture Jam Kalle Lasn 2000-11-07 America is no longer a country but a multimillion-dollar brand, says Kalle Lasn and his fellow "culture jammers". The founder of Adbusters magazine, Lasn aims to stop the branding of America by changing the way information flows; the way institutions wield power; the way television stations are run; and the way the food, fashion, automobile, sports, music, and culture industries set agendas. With a courageous and compelling voice, Lasn deconstructs the advertising culture and our fixation on icons and brand names. And he shows how to organize resistance against the power trust that manages the brands by "uncooling" consumer items, by "dermarketing" fashions and celebrities, and by breaking the "media trance" of our TV-addicted age. A powerful manifesto by a leading media activist, Culture Jam lays the foundations for the most significant social movement of the early twenty-first century -- a movement that can change the world and the way we think and live.

Historic Towns of the Western States Lyman Pierson Powell 1901

A Patriot's History of the United States Larry Schweikart 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

Fields of Gold Madeleine Fairbairn 2020-07-15 Fields of Gold critically examines the history, ideas, and political struggles surrounding the financialization of farmland. In particular, Madeleine Fairbairn focuses on developments in two of the most popular investment locations, the US and Brazil, looking at the implications of financiers' acquisition of land and control over resources for rural livelihoods and economic justice. At the heart of Fields of Gold is a tension between efforts to transform farmland into a new financial asset class, and land's physical and social properties, which frequently obstruct that transformation. But what makes the book unique among the growing body of work on the global land grab is Fairbairn's interest in those acquiring land, rather than those affected by land acquisitions. Fairbairn's work sheds ethnographic light on the actors

and relationships—from Iowa to Manhattan to São Paulo—that have helped to turn land into an attractive financial asset class.

A Skeptic Among Scholars August Frugé 1993-09-15 When August Frugé joined the University of California Press in 1944, it was part of the University's printing department, publishing a modest number of books a year, mainly monographs by UC faculty members. When he retired as director 32 years later, the Press had been transformed into one of the largest, most distinguished university presses in the country, publishing more than 150 books annually in fields ranging from ancient history to contemporary film criticism, by notable authors from all over the world. August Frugé's memoir provides an exciting intellectual and topical story of the building of this great press. Along the way, it recalls battles for independence from the University administration, the Press's distinctive early style of book design, and many of the authors and staff who helped shape the Press in its formative years.

Mesa Verde National Park Duane A. Smith 2009 Mesa Verde National Park was America's first cultural park and also the world's first cultural heritage park. Created in 1906, it preserves the sites and materials of the prehistoric Puebloan people. Located in southwestern Colorado near the famous Four Corners, where the states of Colorado, Utah, Arizona, and New Mexico meet, the

magnificent Mesa Verde is situated in Montezuma County, just south of Cortez and directly west of Durango. The park's rich archaeological history was played out amid some of the most ruggedly beautiful landscapes in the West. The greater story of the evolution of the park encompasses the Ute people, Theodore Roosevelt, novelist Willa Cather, and other personalities. These remarkable vintage photographs tell that saga, which is as fascinating as that of the Puebloans.
