The Suburban Racial Dilemma W. Keating 2010-06-10 "[Keating] chronicles efforts to break down suburban racial barriers in housing throughout the United States.... Keating's data also point up our urgent need to focus public policy on depopulated and increasingly impoverished and homogeneous urban centers. As he convincingly demonstrates, private and government attempts at suburban integration, as well as special urban integrationist projects, have achieved spotty results at best." --Publishers Weekly Whether through affirmative housing policies or mandatory legislation, there have been numerous efforts to integrate America's neighborhoods, especially the historically white, affluent suburbs. Though much of suburbia has rejected such measures out of a fear of losing their communities to an influx of low-income, inner-city, and primarily African American residents, several metropolitan areas have been successful in creating greater racial diversity. W. Dennis Keating documents the desirability, feasibility, and legality of implementing housing diversity policies in the suburbs. At the heart of this book is the troubling dilemma that the private housing market will inevitably resist race-conscious policies that can be effective only if embraced and supported by individual home buyers and renters, politicians, realtors, financial institutions, and insurers. In the Cleveland, Ohio, metropolitan area, pro-integrative policies have resulted in some examples of long-term racial diversity, particularly in Cleveland Heights and Shaker Heights. Keating compares Cleveland's suburbs to suburbs around the country that have both failed and succeeded in reducing housing discrimination. While there have been occasional fair housing victories over the last three decades, Keating's analysis points toward strategies for greater progress in the future.

Window of Guilt Jennie Spallone 2013-04-10 Chicago real estate agent Laurie Atkins is gardening beneath the relentless August sun when her dog's frantic barks divert her to a dead body sprawled on the front acreage of her Wisconsin summer home. She rushes inside to phone the police, but the body disappears. Laurie begins to doubt her own sanity. Then the unidentified body turns up on the driveway of Helga Beckermann, her devious neighbor. When her emotionally withdrawn husband skips town on the holiest day on the Jewish calendar, Laurie uncovers truths she'd rather deny. Her family in peril, Laurie enlists the help of two women she thinks she can trust: former Chicago Tribune investigative reporter Mitzy Maven, and tough-talking CPD detective Maggie O'Connor. "A brilliantly crafted story of what happens when life insurance companies play God, and how the dark desires of deceit and greed come home to roost." --R.P.Dahlke, author of *A Dead Red Heart* and *A Dead Red Cadillac* "A dramatic, fictional portrayal of the issues health insurance claimants face when confronted by fraudulent claims handling practices." -- Robert A. Shipley, AV Rated Trial Attorney

Promoting Housing Choice in HUD's Rental Assistance Programs John M. Goering 1996-07 Provides the first empirical evidence that the U.S. Dept. of Housing and Urban Development's (HUD) tenant-based certificate and voucher programs are already much less likely than public housing to concentrate needy households in poor urban neighborhoods. Evaluates the implementation and effects of existing demonstration and judicially mandated programs that help minority families receiving section 8 certificates and vouchers to move out of areas with high concentrations of minority persons. The Encyclopedia of Housing, Second Edition Andrew T. Carswell 2012-05-31 Since publication of the groundbreaking Encyclopedia of Housing in 1998, many issues have assumed special prominence within this field and, indeed, within the global economy. For instance, the global economic meltdown was spurred in large part by the worst subprime mortgage crisis we've seen in our history. On a more positive note, the sustainability movement and "green" development has picked up considerable steam and, given the priorities and initiatives of the current U.S. administration, this will only grow in importance, and increased attention has been given in recent years to the topic of indoor air quality. Within the past decade, as well, the Baby Boom Generation began its march into retirement and senior citizenship, which will have increasingly broad implications for retirement communities and housing, assisted living facilities, aging in place, livable communities, universal design, and the like. Finally, within the last twelve years an emerging generation of young scholars has been making significant contributions to the field. For all these reasons and more, we are pleased to present a significantly updated and expanded Second Edition of The Encyclopedia of Housing.
